

LIBERTY RESOURCES

**Job Opportunities with Liberty Resources POST
Physical Therapists
Rochester, Buffalo and Syracuse, NY**

Liberty POST, a new joint venture between Liberty Resources and Early Childhood providers, offers children from ages birth to school aged, a range of services. Liberty POST holds contracts with counties throughout New York State to provide Early Intervention, Preschool Special Education and school aged special education services as well. Liberty POST focuses on hiring highly qualified professionals in the areas of Speech-Language Pathology, Occupational Therapy, Physical Therapy, Special Education, and Psychology.

Liberty Resources POST is furthering its mission by expanding services into the early childhood area. We will be leveraging our infrastructure and industry knowledge to help our youngest neighbors and their families cope with a range of disabilities. Liberty is pleased to announce that we have received NYS Department of Health approval to become a provider of Early Intervention Services, which covers a variety of highly specialized services for children birth-3 years old. We have approval from the NYS Education Department as a provider of the same services for children from 3-5 years old.

We are serving children and families in the counties surrounding Syracuse, Buffalo, Rochester, and Albany. Our vision is to expand throughout NYS and other states as we build a reputation for excellence.

We are looking for Experienced Physical Therapist who demonstrates the ability to effectively work with young children referred for Early Intervention Services and to develop and implement functional, effective and efficient management / therapy programs. Also participates in staff development and student education activities.

Requirements:

NYS Licensed and Certified, new graduates are required to have a Doctorate of Physical Therapy.
