

Modern Languages +Plus Community Health Promotion

Degree Offered: • Bachelor of Arts in French
• Bachelor of Arts in Spanish

Daemen College's Modern Languages Department focuses on language fluency and cultural understanding.

The Modern Languages curriculum offers a Professional Track for those with interest in applying their language and cultural fluency to their career. Majors include a B.A. in French or Spanish.

The coursework offered in culture, literature, linguistics, composition and professional-related language skills provides our graduates with the ability to go beyond self-expression to a level of real understanding and communication with hundreds of millions of people who live and work in different cultures and situations.

Why Modern Languages +PLUS Community Health @ Daemen?

- Combine your love of language and culture with your commitment to make a difference!
- Daemen's Modern Languages Department offers courses in Language, Culture, and Linguistics, creating a well-rounded undergraduate curriculum.
- Graduates are prepared to work with a diverse population in the U.S. and globally in a variety of health care related fields.
- Our colloquium course in Sophomore, Junior and Senior year focuses on each student's individual academic, personal and professional goals. Faculty mentors ensure steady progress toward academic success.
- Students meet with native-speaker Language Assistants for language and cultural development on a regular basis.
- Local service learning and internship opportunities include working with agencies that serve Latino, immigrant, or refugee communities.

Modern Languages +PLUS Community Health students are PREPARED:

- Professional Track students participate in an internship Junior and/or Senior year – locally, during their study abroad experience or during a semester with the Washington Internship Institute.
- In addition to language and cultural study, students will gain a background in the sociological, behavioral, and business aspects of health care.
- Students use language skills in hands-on, real-life assignments both in and out of class.
- Students who maintain a 3.0 GPA are fully prepared for entrance into Master of Public Health programs.
- Career options include governmental and not-for-profit.

did you know...

French is now the international language of medicine.

Spanish language skills are needed in all areas of healthcare in the United States.

Explore Your World of Opportunity

- Exciting and affordable study-abroad options ensure linguistic and cultural fluency. You can spend a year, semester, summer, January term, or spring break studying in Mexico, Spain, Argentina, Puerto Rico, the Dominican Republic, Costa Rica, France or Quebec.
- Students can participate in community health related service learning or internship during their semester abroad.
- Accompany Physician Assistant, Physical Therapy, and Health Care Studies faculty and students for community health service learning in Haiti, the Dominican Republic, and Kenya during the January term or spring break.
