### “Energy Democracy- What Can We Learn From Germany?”

The Sierra Club-Niagara Climate & Clean Energy Writers Group meeting will feature a presentation from Aaron Bartley, executive director of PUSH Buffalo on **Monday, February 2**. Aaron recently traveled to Germany and witnessed entire communities that produce, maintain, distribute, and sell their own renewable energy. Let's hear what he learned, and how PUSH Buffalo sees it applying to WNY! This free, public meeting is from 6:00 to 7:30pm at the Unitarian Universalist Church of Buffalo, Alliance Room (2nd Floor) at 695 Elmwood Avenue.

### Great Lakes Action Agenda Public Meeting

New York Sea Grant and NYSDEC's Great Lakes Watershed Program is hosting a public to provide information on the [Great Lakes Action Agenda](#), to discuss the proposed strategy for implementing the agenda, and to seek input on priorities for achieving watershed health across the region. The free meeting will be held from 3 to 5 p.m. on **Wednesday, Feb. 4** at Cornell Cooperative Extension of Erie County, 21 Grove St. East Aurora. An optional discussion and networking session will be held from 5-6 p.m. **Pre-registration is required** with NY Sea Grant at [sgoswego@cornell.edu](mailto:sgoswego@cornell.edu) or 315-312-3042.

### Dual fuel technology workshop and Clean Cities Stakeholder meeting

National Fuel and Clean Communities of WNY invite you to a workshop on Dual Fuel Technology from 9am-noon on **Thursday, February 5** at the Adam's Mark Hotel, 120 Church St., Buffalo. Registration is required for this free workshop [here](#).

### Maple Syrup Production for Beginners

Buffalo Audubon Society and Sunny Hill Farm are teaming up to host a Backyard Maple Syrup Production Workshop on **Sunday, February 8th** starting at 2:00 pm at Beaver Meadow Audubon Center. Maple syrup is among the oldest natural food products produced in North America. Join Norm Ameis from Sunny Hill Farm in Arcade for the do's and don'ts of maple syrup production. Pre-registration is required and the cost is \$10. To register please call Beaver Meadow at 585-457-3228 or email [info@buffaloudubon.org](mailto:info@buffaloudubon.org)

### Bowl-A-Rama for MAP

Massachusetts Avenue Project's (MAP) annual Bowl-A-Rama fundraiser is **February 8th** at Voelkers (686 Amherst St., Buffalo) and everyone is invited to bowl with us! MAP's programs boost our local economy and help rejuvenate Buffalo's West Side. Money raised will provide 10 young people with jobs at MAP, providing them with meaningful work and the tools to change the food environment in Buffalo! Recruit a team of up to 5 people, or come bowl by yourself and make new friends once you get there! <http://map-bowl-a-rama.brownpapertickets.com/>

## Environmental Educator Activity Exchange

Environmental and outdoor educators of the Western Region are invited to “*show and share*” one of their favorite program activities with colleagues during this fun and FREE casual professional development event on **Wednesday, February 11**. Socialize with other educators (experienced, as well as new to the field!) and swap strategies, stories, and your spirit for the outdoors and education! The event will be from 10am to 3:30pm at Reinstein Woods Nature Preserve and is sponsored by the *New York State Outdoor Education Association* (NYSOEA). Please pre-register by **Friday, February 6<sup>th</sup>** by contacting Kristen at 716-683-5959 x202 or [kristen.rosenburg@dec.ny.gov](mailto:kristen.rosenburg@dec.ny.gov) and provide your name, title, organization, and phone number. To share an activity lesson plan or resources, submit to Kristen by February 8. Be sure to specify if any particular materials are needed, what length of time is needed to show the activity (approximately 20-30 minutes), and whether the activity will be shared inside or outside. Please bring your own lunch. Light refreshments will be offered and a suggested donation of \$5 per person is greatly appreciated which will go towards NYSOEA’s DEC Camper Scholarship Fund. One new NYSOEA annual membership will be raffled off for FREE during the workshop.

## One Region Forward Community Congress

After three years of hard work and planning, One Region Forward will be celebrating our accomplishments while also looking to the future and next steps. Join us on **Thursday, February 12** from 5:30-7:00pm at Buffalo & Erie County Central Library, 1 Lafayette Square, Buffalo, 14203. **Research Experience for Undergraduates (REU):  
Ecosystem Restoration through Interdisciplinary Exchange (ERIE)-REU at University at Buffalo**

Applications are now being accepted for the summer 2015 Ecosystem Restoration through Interdisciplinary Exchange (ERIE) REU at the State University of New York at Buffalo (UB). The ERIE-REU, sponsored by the National Science Foundation, provides the opportunity for undergraduate students to conduct interdisciplinary faculty-mentored research on a diverse array of projects related to ecosystem restoration and engineering for sustainability. REU participants will receive a total of a \$5,000 stipend and on-campus housing in a newly constructed LEED-certified student complex. Participation is limited to U.S. citizens or permanent residents, and students must be enrolled as undergraduate students in a college program through Fall of the following year (graduating seniors are ineligible). Students from underrepresented groups or attending institutions lacking research facilities or opportunities are especially encouraged to apply. Applications must be fully completed by **February 27, 2015**. More information can be found at: [http://www.erie.buffalo.edu/REU\\_apply.php](http://www.erie.buffalo.edu/REU_apply.php)

**Buffalo Niagara Riverkeeper's River Academy Registration Open**

Buffalo Niagara Riverkeeper's River Academy is a field based training series that provides an introduction to our Niagara River watershed through Saturday morning classes in stream science. River Academy will feature Riverkeeper staff and local experts sharing their knowledge of Niagara River hydrology, ecology, contamination and cleanup, land use impacts, restoration project design, green infrastructure solutions, watershed planning, green production and many current issues affecting our watershed. Sessions will include environmental service learning, exploration field trips and hands-on workshops. All participants will receive a certificate upon graduation. Classes run from **January 24 to May 16, 2015**. Classes will be held from 12pm to 4:30pm on Saturdays at the Riverkeeper office (721 Main Street, Buffalo, NY 14203) and field locations. <http://bnriverkeeper.org/riveracademy/>

The annual Symposium on Energy will be held on **April 17, 2015** at "[The Links](#)" in East Syracuse, New York. The symposium includes talks and field trips. Advance registration is available until April 1. [register](#)

## **Community Supported Agriculture (CSA) Enrollments Open-Don't delay**

Want fresh vegetables throughout the summer without the hassles of growing your own? Consider joining a CSA (community supported agriculture) and receive a weekly share of the farm's bounty. Many CSAs are filled for the 2015 season, so don't delay. There is a listing of many local CSAs further down in the newsletter.

## **Ithaca Native Landscape Symposium**

The seventh annual Ithaca Native Landscape Symposium will be held on **March 6 and 7** at the Cinemapolis, Ithaca's Art Theatre on the Commons. The Symposium is based on a simple idea: the use of native plants should remain an integral part of sustainable landscapes. The Symposium offers alternative ideas, knowledge and perspective presented by experts and professionals from our region and beyond. It is for landscape architects, designers, educators, Master Gardeners, government employees, homeowners, gardeners, naturalists and anyone else eager to learn more about this growing movement. For more info, click [HERE](#)

## **PUSH Green comes to WNY**

[PUSH Green](#) was created to help WNY get energy efficient! Through PUSH Green you may receive a free comprehensive energy audit of your home. If you choose to proceed with recommended improvements, we can help you access subsidies and low-cost financing you may qualify for, including a new NYSERDA program that will allow you to finance improvements right on to your utility bill, eliminating the need to pay up-front. PUSH Green acts as your knowledgeable advocate during the entire process, and helps connect customers to contractors who agree to do right by their workers and community. Visit [www.pushGREENwny.org](http://www.pushGREENwny.org) or call 716-886-1780.

## **Urban Farmer Information Wanted for Database**

Ehle Shachter, Brooklyn office of NYS Department of Agriculture and Markets, is creating a community gardening and urban agriculture webpage. Their webpage features newer images of community garden and urban agriculture activities across the state, with references to the establishments specifically. Check out the [webpage](#). If you have events or information to share, please contribute to the calendar at this site. Submit your event (Name of event, organization, link to event, description of event, time, and date to [commgardenandurbanagcalendar@gmail.com](mailto:commgardenandurbanagcalendar@gmail.com) .

## **WNY Coalition for Donated Goods-Textiles Accepted**

The WNY Coalition for Donated Goods (WNYCDG) is a consortium of local non-profit organizations including Salvation Army, Amvets, Goodwill, Hearts for the Homeless and the City Mission. The mission of WNYCDG is to educate the community on the environmental and economic benefits of recycling and donating goods and to provide easy access to donation opportunities. WNYCDG is supported and sponsored by the City of Buffalo and the County of Erie and partially funded by the State of New York. By donating to a WNYCDG member, donors are assured that they are providing valuable life changing services to people right here in Western New York. For a list of dropoff sites by zip code, visit [here](#) (scroll to bottom).

## **University at Buffalo's 2015 Stream Restoration Summer Workshops**

The University at Buffalo (UB) will be offering two summer workshops on topics related to stream restoration. Workshops are scheduled for the first week of **June 2015** at the UB's North Campus in Buffalo, NY. The first workshop is Fundamentals of Stream Channel Design (June 1-2) and the second workshop is Watershed Management Planning, Assessment, & Monitoring (June 3-5). Participants may take either or both workshops. The workshops are geared toward graduate students and environmental professionals. More information will be posted on our webpage: <http://www.erie.buffalo.edu/trainingSummerCoursemainpage.php> and registration will open in early 2015.

## **Food not Bombs**

Buffalo Food Not Bombs prepares shares a free vegan meal with anyone who is hungry at Lafayette Square on Mondays and Saturdays from 1 to 2 p.m.. Volunteers are ALWAYS welcome! Food Not Bombs shares food as a form of political protest. Sharing food in a public place draws attention to the fact that society fails to provide food and housing for all people, while hundreds of billions of dollars are given to fund wars and state violence. There is enough food to go around: all the fresh produce, grains, and beans that Food Not Bombs uses would have otherwise gone to waste. Worldwide, roughly one third of food produced for human consumption is lost or wasted. There are hundreds of Food Not Bombs groups throughout the world. Each group is autonomous but they share the same core beliefs: cooking without animal products, a consensus decision-making process, and nonviolence. For more info, <https://www.facebook.com/BuffaloFNB>

## **Groundhog Day: Real Story**

The tradition of trusting our spring weather prediction to a groundhog has its roots in legends from the past. February 2 is Groundhog Day in the US with several famous woodchucks (Dunkirk Dave and his better known cousin Punxsutawney Phil) watched to determine whether they see their shadow forecasting a longer winter. Past traditions suggested that if the sun made an appearance on Candlemas Day (a day when candles were lit to represent the lengthening days), hedgehogs would cast a shadow leading to six more weeks of bad weather. For more on the tradition, visit <http://inhabitat.com/the-true-story-behind-groundhog-day/>

## **National Water-Use at Lowest Levels Since 1970**

Water use across the country reached its lowest recorded level in nearly 45 years. According to a new USGS report (found at <http://pubs.usgs.gov/circ/1405/>), about 355 billion gallons of water per day were withdrawn for use in the entire U.S. in 2010. This represents a 13% reduction of water use from 2005. Withdrawal for irrigation remains one of the major uses of water nationwide.

## **Permaculture Videos-See it in Action**

An online video series allows you to see permaculture sites and gain a better understanding of what is involved. Check it out at <http://www.openpermaculture.com/experience-permaculture-site-visits>.

## **DEC Seeks Landowners for Turkey Data Collection**

Beginning in January, the New York Department of Environmental Conservation (DEC) will embark on a statewide effort to capture wild turkey hens and fit them with leg bands to obtain accurate data on survival and harvest. A small number of these birds will also be tagged with satellite radio-transmitters. All of the work will be done by DEC personnel on both public and private lands from January through March. The DEC is looking for landowners in our region who will allow birds to be trapped on their land (after banding, birds will be released at same location). Observations of turkey flocks during January through March can be reported to the project coordinator for that region or can be reported using the [Winter Wild Turkey Flock Survey](#) form found on DEC's website. For more information on this project, contact the regional project coordinator below or DEC by e-mail at [wildlife@dec.ny.gov](mailto:wildlife@dec.ny.gov). "Turkey Study" should be listed as the subject line in any e-mails. More info and regional contact information: [www.dec.ny.gov/press/94783.html](http://www.dec.ny.gov/press/94783.html)

## **Chemical Cock Up- Polar Bear Erectile Dysfunction?**

A Danish study has found that exposure to organohalogenes like polychlorinated biphenyls (PCBs) has led to lowered density in the penile bones in polar bears. Unlike humans, these mammals have a bone within their penis. The study examined 279 penile bones from bears from different subpopulations and found a significant correlation between chemical exposure and penis size and density. For more info, visit <http://inhabitat.com/chemical-pollutants-are-breaking-polar-bears-penises/>.

## **DEC Releases Plan to Prevent Spread of the Hemlock Woolly Adelgid**

The Hemlock Woolly Adelgid (HWA) is an invasive insect species which kills hemlock trees, including Eastern hemlock (*Tsuga canadensis*). It multiplies very rapidly, feeding on the infested tree, and usually causes death within five to 10 years. Through a partnership with the Nature Conservancy and Cornell Cooperative Extension, the Department of Environmental Conservation is taking action to prevent the spread of HWA into the Zoar Valley area. In September, Cornell scientist Mark Whitmore discovered a single tree infested by HWA (*Adelges tsugae*), in Deer Lick Conservation Area, property that is adjacent to Zoar Valley Multiple Use Area. This was the first HWA detection in western New York. DEC will use two systemic pesticides to treat the infested trees and approximately 600 trees around them, in an attempt to kill the pests and prevent HWA from spreading further into the Zoar Valley. The registered chemicals (dinotefuran and imidacloprid) will be applied by DEC certified pesticide applicators directly to the bark of the trees, where it will absorb into the vascular tissue. Dinotefuran moves rapidly through the tree, killing any adelgids that are feeding on it, while imidacloprid moves more slowly, protecting the tree from further attacks for five years or more. HWA has been known in parts of New York for over 20 years, but this is the first detection of the pest in the Zoar Valley.

## **Assisted Home Performance with ENERGY STAR®**

Want to improve your home's energy efficiency and comfort while saving money? Have a home energy assessment conducted by trained and experienced home performance contractors. The assessment provides you with a top-to-bottom look at where your home is wasting energy. You will learn the root cause of any drafts, inconsistent temperatures, heating and cooling system failures, or other problems you may be experiencing. The Assisted Home Performance with ENERGY STAR program makes it easy and affordable to make the smart investment in a more energy-efficient home, helping income-eligible homeowners across the State lower their energy bills and live more comfortably all year long. It provides those who qualify with a discount covering 50% of the cost of eligible energy efficiency improvements up to \$5,000 per project for single-family homes. Two- to four-unit residential homes with income-eligible residents may qualify for a discount of up to \$10,000. Get a home energy assessment to pinpoint where energy and dollars are being wasted. ## **Spotted Wing Drosophila-Be Prepared for this Invasive**

The spotted wing *Drosophila* (SWD) is an invasive fruit fly pest that harms berry and other fruit crops. While fruit flies are not new in the US, this species is different in its ability to infest healthy fruit rather than just over-ripe or damaged fruit. Females of this species have serrated ovipositors that can cut into healthy fruit to insert eggs. The insect can have as many as ten generations per year, so has the potential to cause considerable crop loss. A March 4 daylong workshop in Batavia (register by Feb. 25) will provide info on identifying and managing this pest. For workshop info, visit [www.hort.cornell.edu/grower/nybga/swdworkshops/index.html](http://www.hort.cornell.edu/grower/nybga/swdworkshops/index.html)

## **Pacific Institute for Climate Solutions Offers Online Climate Courses**

Climate Insights 101 is a short course series designed to provide users with an in-depth understanding of climate science and related issues. Climate Insights 101 is produced as a series of modules, each with several animated lessons. New courses in 2014 will focus on mitigation. To learn more, visit: [courses](#).

## **2015 Erie Canal Cycle Tour Registration Open**

[Click here to register today!](#) The 2015 tour kicks off in Buffalo on **July 12** and arrives in Albany on July 19.

## Cool Harvest Resource for Climate Change & Diet

Cool Harvest is a food faith and climate program. Food is central to religious life – from rituals to sacraments to soup kitchens – and looking more carefully at our food choices can be a revealing exercise. CoolHarvest.org has tips and resources to walk you through this, so you can make healthier and more sustainable food choices for your congregation and community. You will also find climate table blessings, tips for hosting a "Cool Potluck" in your community, a guide for building your own raised beds, and much more. Visit <http://www.coolharvest.org/> for tips.

## Small Farmer Courses

The Northeast Beginner Farmers Project offers interactive 5-7-week courses to connect you to the information and people you need to start a successful farm business or diversify your farm. A new series of courses will be offered in early 2015 with limited spaces. Courses are \$200 each. All courses consist of weekly real-time webinars followed by homework, readings, and discussions on your own time in an online setting. Check out the offerings at <http://nebeginningfarmers.org/online-courses/>.

## Summer Teaching Case Studies in Science Workshop

The National Center for Case Study Teaching in Science at University of Buffalo will offer its annual summer workshop from **June 1-5, 2015**. The workshop is limited to 35 people and the cost is \$900.00. The five-day workshop focuses on training science faculty (all levels) to teach with case studies, to write their own cases, and to assess their students' learning with cases. During the final two days of the workshop, all participants are required to teach a case before a student audience using a case they have developed during the workshop. In addition, workshop participants are expected to produce a case study within six months of the workshop for our national, peer-reviewed case collection. Past workshops have included faculty from biology, chemistry, physics, astronomy, computer science, mathematics, geology, psychology, anthropology, nursing, science education, dentistry, engineering, medicine, and other science-related disciplines. Registration and info [here](#).

## Rain Barrel Contest

The Erie County Department of Environment and Planning is proud to announce the 2015 Rain Barrel Painting Contest for schools and student-based community groups in Erie and Niagara counties in honor of Earth Day 2015! All are encouraged to enter as a team, either through a class or an after-school program. The team will design and paint a rain barrel provided by the Coca-Cola Bottling Company of Buffalo, Inc. for the theme, ***One Earth...One Chance – Recycle the Rain***. Winners will be awarded generous cash prizes at our annual Earth Day celebration in April, 2015. All participating schools will receive their final painted rain barrels to use, donate or raffle as desired. Call (716) 858-8390 for info.

## Teacher's Resources

[Getting the Picture: Our Changing Climate](#)-The adventures of scientist-photographer James Balog and the Chasing Ice team come to life in a newly released climate science education resource which provides a unique, interactive, multimedia experience for students and educators to learn about the latest climate science and witness real-world changes occurring around the world. This comprehensive educational resource is aligned with national educational standards, including NGSS, CCSS and Climate Literacy.

[SMILE: New STEM Activities for Educators](#) is an award-winning, free access collection of nearly 4,000 STEM education activities. Many activities are grouped by topics with environmental themes including energy, climate, life sciences, and ocean literacy. Activities are also aligned with standards and principles such as the Climate Literacy Principles, Ocean Literacy Principles, and U.S. DOE Energy Literacy framework. Hundreds of SMILE activities are free, and thousands are low-cost and use readily available materials.

["Wild about Birds"](#) -The first of three new topics for the 2014-15 school year, "Wild about Birds" is focused on the science of birds, including their characteristics and adaptations, habitat needs, migration, and life cycles.

[Brazil Habitats and Mask Making \(5-7 years\)](#): Children can learn about the different habitats of Brazil and some of the animals that live there before making their own masks. There are six different species to choose from including the jaguar, capybara and dyeing poison frog.

[Brazil and the Amazon - Wildlife Film Script Activity \(7-11 years\)](#): Children will be introduced to the topics of Brazil and the Amazon before using fact sheets to research and write a script for their own wildlife film about an endangered species from the Amazon.

[Technology in Environmental Education Course](#)-This eight-week (self-paced) online course is designed to get you up and running with technologies you can use immediately in your organization and environmental programs. Choose the technologies you want to learn. You can focus on mobile and non-mobile tools to enhance your education programs, or focus on social media apps for marketing your programs. Or you can focus on both! The course is free, funded by EPA.

[New Enviro App: Habitat the Game](#)-The Wildlife Conservation Society and Rainforest Alliance have created this new app for kids to save virtual endangered species and reduce their carbon footprint while on real-life missions. Designed for seven to 12 year-old players, Habitat encourages care of virtual endangered animals while they earn points by completing real-life missions, like recycling or visiting a park or zoo.

[Free ArcGIS for K-12](#) -Esri is providing free ArcGIS Online subscriptions for instructional use for all K-12 schools in the United States as part of the White House's ConnectED initiative. Resources to help schools get started with ArcGIS Online are available [here](#).

[Teaching Climate Change Using the National Climate Assessment Report](#)- Corn producers in Iowa, oyster growers in Washington state, and maple syrup producers in Vermont are all observing climate-related changes that are outside of recent experience. Decisions we need to be making to do something about this in our own communities and states are highlighted [here](#)

[PlanetExplore](#)-Find outdoor activities and events in your area through this portal to the outdoors designed to inspire and enable people of all ages to become regularly active outside, and to develop the benefits gained through a connection to nature.

The [CLEAN](#) (Climate Literacy and Energy Awareness Network) collection is a searchable database for teachers to find online activities, videos, and graphics on climate and energy education. Teachers may sign up for the newsletter with updates on educational policies, discussions with experts, events, and weekly telecons.

["Appetite for Adventure: Exploring Global Food Sustainability"](#)-Green Living Project is proud to announce our new school assembly program. This standards aligned, multimedia presentation will showcase cutting-edge sustainable food projects from around the world, introducing students to the local and global connections between food production, consumption, and climate change.

[Advancing Climate Change Environmental Education Resources](#)- The Climate Change Environmental Education POLCA (Project-based Online Learning Community Alliance) has released materials produced by nine working groups. Formal and informal educators will find research findings, standards, and teaching suggestions appropriate for social studies, language arts, science, and interdisciplinary teaching/learning.

[Green Technology: Sustaining the Earth](#) is designed for Grades 6-12 . Use this interactive activity to offer your students an overview of innovation in green technology and insight into various areas of research within the field.

## Tips for the Environment:

1. **Air dry your dishes-** If you use an automatic dishwasher, you can save about 15% of the energy used by your dishwasher with the air dry feature instead of using a heated dry cycle. This also prevents any remaining food particles from being baked on.
2. **Make your own cleaning wipes-**Do you like to have a container of moist wipes around? You can make your own with vinegar and liquid dish soap and a modified coffee can. Not only will you save money, but you will be using an environmentally-friendly solution. Check out the steps [here](#).
3. **Reuse and recycle your Tips for the Environment-**we are probably all using CFL bulbs, recycling regularly and engaging in lots of earth-friendly behaviors. So let's reuse and recycle-you can check the list of tips from the first Enviro-News in January 2006 (check for any missed at [econews](#)). If you have tips to share, please send them to me to include.

## February's Contribution by Lesley Haynes: Remember the 4 R's: Reduce, Reuse, Recycle, Repair

On February 14<sup>th</sup> St. Valentine's Day is celebrated in many countries around the world. The date was first associated with [romantic love](#) in the [Middle Ages](#) then in 18<sup>th</sup> century England it evolved into an occasion when sweethearts expressed their love for each other by presenting flowers, offering chocolates, and sending [greeting cards](#) known as "valentines".

Statistics state that the average annual Valentine's Day spending in the United States is \$14 billion; \$403 million are spent on flowers, over 36 million heart-shaped boxes of chocolate are sold and \$180 million on cards are purchased annually. What does that have to do with Going Green? It can have a substantial impact on the environment. For example, one billion cards laid end to end would stretch around the world 5 times! That's a lot of trees.

Think green this Valentine's Day. Buy local if you are going to do some gift shopping or eating out. Why not support a local business instead of a big chain store?

If Valentine's Day is an important day for you or the one you love; then you can also show some extra love for the environment by carefully considering what you buy. Here are some ideas:

- Look for cards made from recycled [paper](#). An old-fashioned homemade Valentine can be far more meaningful than something you find in a store, or you could write a hand-written letter or poem, create a list of all the things you love about the person. Your partners, children, parents and friends will appreciate the extra thought and personal touch much more.

- *DO NOT send an e-card or an email; it will not be appreciated.*

-If your children are obligated to give a Valentine's Day card to every child in their classroom, help them make their own out of recycled paper.

- Buy the person a gift certificate for holistic therapies, massage, yoga, or a health spa.

- Instead of cut flowers choose potted plants and purchase organic or local whenever possible, your gift will last much longer.

- Do something extra nice. Maybe it's making dinner for your mother, phone that friend you haven't heard from in a long time, let them know that you are thinking of them as that is what this day should really be all about.

- A homemade meal is a great alternative to eating out. The effort you put in will be sure to impress!

- Something unique: Plant a tree together to symbolize your relationship's strength and endurance. Place a list of all the things you love about each other under its roots.

- If you choose to buy perfume, use caution – hidden behind many popular, pleasant scents are many chemicals linked to hormone disruption, reproductive problems, and even cancer. **READ THE LABELS.** Seek out natural fragrances, you will be showing you not only care for the environment, but the person's health.

However you celebrate the day, see if you can to avoid the commercialism.

Why go green? It's simply the right thing to do! Being intentionally eco-friendly has more to do with celebrating God's creativity, being wise with what He's given us, and passing on those values to the next generation. I am not suggesting that you become frugal especially when you are about to propose to your intended - enjoy celebrating a holiday that's all about love. An unexpected kindness is more than enough to show your love how much you care.

Remember "Together we can make a difference".

Happy Valentine's Day to you!
