## National Transportation Stakeholders Forum-Department of Energy

Save the date for the next meeting of the U.S. Department of Energy (DOE) National Transportation Stakeholders Forum (NTSF) scheduled for **May 14-16, 2013**. This annual event will be held at the Hyatt Regency Hotel, located near the downtown business and entertainment districts in Buffalo, New York. The 2013 meeting is co-sponsored by DOE's Offices of Environmental Management and Nuclear Energy and follows several highly successful yearly gatherings. It is co-hosted by the Council of State Governments Eastern Regional Conference and the Northeast High-Level Radioactive Waste Transportation Task Force.

The NTSF meeting brings together states, tribal nations and other stakeholders with federal officials in addressing key national radioactive waste transportation issues. The event features informative presentations and useful discussions about transportation activities associated with DOE program offices and field sites. The agenda will also address National Nuclear Security Administration, Nuclear Regulatory Commission, US Department of Transportation and other federal agency actions. Please watch for more details in the near future about meeting registration, specific events, hotel reservations, and the agenda.

### Call for Works: People Powered Movement

GObike Buffalo is seeking artists, sculptors, poets, and writers to celebrate bicycling as a form of transportation. The goal of the show is three fold: to engage the art and cycling communities, to draw awareness to the benefits, issues, and impacts of cycling as a form of transportation, and to raise money for GObike Buffalo, the region's only organization whose primary focus is bicycle advocacy. 20% commission for each piece of work sold will be donated to GObike Buffalo. Submitting: Go to [submissions](#) to submit your work. All submissions are due by **MAY 5th**; you will be notified by **May 9th**. Works must be dropped off at Main (St)udios by **May 16th** during open gallery hours (Tues.-Fri. 11-5 & Sat. 12-3) labeled with Name, Title, & Price and ready to hang. ## Be Green Organic Yards NY

Want a beautiful yard using organic practices without conventional pesticides and synthetic fertilizers, but need help to create and maintain it? Businesses that participate in DEC's Be Green Organic Yards NY program can take care of your lawn, plants, and trees organically. When you hire a Be Green business, only products and materials that meet DEC's conditions for organic management should be used in your yard. Be Green businesses sign an agreement with DEC for the right to use the Be Green service mark (logo). In return, businesses agree that, when they provide Be Green services, they will avoid the synthetic pesticides and other materials prohibited by the organic conditions as they are defined in the agreement. The businesses also take an introductory Be Green training course that explains the conditions of the Be Green agreement and introduces the basic concepts of organic lawn care. Homeowners and commercial customers looking for organic yard care can visit our web site for a list of [Be Green Businesses](#). Questions about the program? Email us at [BeGreen@gw.dec.state.ny.us](mailto:BeGreen@gw.dec.state.ny.us)

## Text Campaign- Grow 716

Have you ever seen something happening in your neighborhood that you wish you could stop, but you didn't know how? Through the support of the Community Foundation for Greater Buffalo and the John S. and James L. Knight Foundation, Grow 716, a community journalism project, has been created so that you can report what is going on in your neighborhood. It's illegal for a truck to idle for longer than five minutes. Don't put up with the fumes! Text TRUCKS to 877877 to report them. Have you stepped outside only to be greeted by a foul odor? Report it! Text STINK to 877877. Do you see dark, dangerous looking smoke? Let us know by texting SMOKE to 877877. Your report will go to the Clean Air Coalition of Western New York who will bring these problems to the people in power and use the data to make change in our community. When you see polluters in your neighborhood, take action. Text us by using the keywords above, tell us what and where the problem is, and we will connect you to the organizations that make a difference in our community. \*Messaging and Data Rates May Apply. Text STOP at any point to quit.

Be on the lookout for more information about the Grow 716 community journalism project. If you are a [member](#) of the [Western New York Environmental Alliance](#) and want to learn about how your organization can utilize this texting project, contact Kristen Kaszubowski at [kristenk@growwny.org](mailto:kristenk@growwny.org).

Please call 827.1584 ext. 291 for information on how to take your soil samples. Admission to the gardens is required.

## Buffalo Museum of Science Welcomes New BODY WORLDS VitalExperience

The Buffalo Museum of Science (BMS) will welcome the new exhibition *BODY WORLDS Vital* on May 31, 2013 for a limited engagement. This exhibition, created by world renowned Dr. Gunther von Hagens features real, donated human specimens allowing visitors to examine anatomy, physiology and health through an extraordinary process called Plastination. The exhibition is presented by Independent Health and M&T Bank.

In contrast with the heart-focused *BODY WORLDS* hosted by BMS in 2009, *Vital* explores the capabilities of the human body and tells the pressing story of how best to defeat life-threatening diseases through informed choices and lifestyle changes. The 6,000 sq. foot exhibition presents both healthy and diseased specimens designed to show visitors the essentials for human health and wellness. Whole body plastinates, individual organs, organ and arterial configurations and translucent slices give a complete picture of how the body functions. Timed tickets for *BODY WORLDS Vital* are now available for purchase at [www.sciencebuff.org](http://www.sciencebuff.org). Tickets include general admission to the museum, including its new science studios.

## **Save the Planet One classroom at a time-Student Projects Wanted**

Showcase your students’ Earth Day projects (photos, posters, essays, books, etc.) for display at Party for the Planet at the Buffalo Zoo on Saturday **June 22, 2013** from 10am – 3pm. The message of Earth Day (April 22nd, 2013) has never been more critical than it is at this time. Your help is needed to promote understanding of environmental issues, motivate young people to take action on behalf of the Earth, and demonstrate how students can have a positive impact on the environment. You can fulfill the requirements of Standard 4 of the NYS Elementary Science Core Curriculum by addressing certain topics. To reserve your space or for more information, call Sharon Benz (716) 839-8534 or email [sbenz@daemen.edu](mailto:sbenz@daemen.edu). Info at [www.wnyearthday.org](http://www.wnyearthday.org).

## Teacher's Resources

[Bee Smart™](#) School Garden Kit-Apply now to receive a free Pollinator Partnership school garden kit, designed for grades 3-6, to guide students through a discovery process that will increase students' understanding in science, math, and language arts by connecting them to plants, pollinators, food, and gardens by (potentially) creating habitat for pollinators. The kit includes pre- and post-tests, 10 lesson plans with reproducible sheets, and materials for lesson plan activities.

[Bird Sleuth](#) for K-12. Kits and resources for learning more about birds.

[The Story in the Ice: Glaciers and Climate Change](#) are available for you to download and use in your classroom. This 2-day set of lessons pairs James Balog's dramatic images of glacial retreat with real-world scientific data to tell the story of climate change and its impact on our global community. As with all our lesson plans, they are correlated to national learning standards and seek to engage students in interdisciplinary learning experiences.

[New Teacher Forum on Endangered Species Day Site](#)-As part of an ongoing focus on enhancing endangered species education, the Endangered Species Day Teacher Resource Center now features a special Teacher Forum. The Teacher Forum enables teachers to exchange classroom instruction techniques, ask questions, and share resources about endangered species. In addition, they can relate different ways students can participate in the 8th Annual National Endangered Species Day, May 17, 2013.

[2012 Choices for Sustainable Living](#) from the Northwest Earth Institute provides updates to the previous edition on ecological principles, food, community, consumption, the economy, and includes a new section on transportation.

[Great Lakes in My World](#) curriculum is a Great Lakes teaching tool for grades 9-12.

[Team Wild Online Game](#)-ARKive recently launched the Team WILD game as a fun and unique way for students to discover the importance of a career in conservation and science—by turning scientists into superheroes! From jungle to savanna, rainforest to coral reef, students will discover a diverse range of field tasks a conservation scientist or ecologist must do in order to protect the world's species and habitats. Team WILD is also supported by curriculum-linked teaching resources, topic pages linked to the game content and discussion points, encouraging students and teachers to continue their learning journeys by exploring the topics touched upon in the game.

[Think Garden Video Series](#)-This video collection was produced by Kentucky Educational Television (KET) for elementary students as a teaching tool about growing food and all elements around food gardening.

## Contest and Award Opportunities

[Designing to Live Sustainably](#)- a competition with awards and a celebration of designs that become the tools through which we create wiser use of Buffalo's vacant and underused properties. ### **Citizen Science**

**Project BudBurst**- Spring is just around the corner and every plant tells a story. Whether you have an afternoon, a few weeks, a season, or a whole year, you can make an important contribution to a better understanding of changing climates. Project BudBurst is a network of people across the United States who monitor plants as the seasons change and submit ecological data based on the timing of leafing, flowering, and fruiting of plants. If you would like to make a meaningful contribution to understanding environmental change, join our rapidly growing community today! <http://budburst.org/>

**House Sparrow Project**-What do nest monitors and researchers have in common with bluebirds and other native cavity-nesters? We all deal with house sparrows, an introduced species. As spring arrives and birds begin nesting, the House Sparrow Project invites you to collaborate in citizen-science research on this non-native species. Whether you have a handful of nest boxes or a large trail, actively or passively manage sparrows, there are only three requirements for participation: curiosity, nest boxes, and a promise to keep good records. Everyone in the U.S. and Canada is invited to participate. Visit the [House Sparrow Project](#) website to get more information and sign up today!

**Hummingbird Citizen Science Project**-As flowers bloom earlier because of warming temperatures, the impact on hummingbirds which rely on nectar could be severe. The National Audubon Society has launched a new citizen science project to document hummingbird sightings across the country, using a free mobile app that identifies bird species as well as the plants that feed them. Find out more at [www.audubon.org/citizenscience](http://www.audubon.org/citizenscience).
