

[DATE]

Welcome Daemen College Employees!

Your prescription drug coverage through Univera Healthcare starts **June 1, 2020**. Please review this important benefit information and tips to help you save money on your prescription drug costs.

Your Benefit | Under your prescription drug plan, your copay varies depending on which tier your prescription drug is placed. Our practicing physicians and clinical pharmacists regularly review and evaluate tier placement, to ensure the quality of drug care and to control costs. Here's how the three tiers work:

Tier 1 These drugs are typically generic .	Tier 2 These drugs are brand-name and they have unique, significant clinical advantages and offer overall greater value over the other products in this class.	Tier 3 These drugs are also brand-name and they include new brand-name drugs and drugs that have generic equivalents. Tier 3 drugs have the highest copay amount.
---	---	---

To check the costs of your medications, visit Member.UniveraHealthcare.com available to you on June 1. Once you log in with your user name and password, select *Prescriptions > Check Our Drug List > Check Drug Prices*. Simply enter your drug name and follow the prompts.

Your Copays | If your plan has a deductible you would first have to pay that amount. When you've met your deductible, you would only have to pay a copay for your prescriptions. Copays for prescriptions, written for a 30-day supply and filled through a participating retail pharmacy, are as follows:

30-day supply filled at a retail pharmacy	Tier 1 \$X	Tier 2 \$X	Tier 3 \$X
--	-----------------------------	-----------------------------	-----------------------------

Participating Network Pharmacies | You have access to more than 65,000 participating pharmacies in our nationwide Pharmacy Network*, including national chains and most independents. Simply show your member card at any participating pharmacy; it identifies you as having prescription drug coverage.

Generic Advantage Program | Our Generic Advantage program promotes the use of generic medications. If you fill your prescription with a brand-name medication when there is a generic equivalent available, you will pay the difference between the pharmacy's charge for the more costly brand-name medication and our price for the less expensive generic.

Check your benefits summary to find out if the Generic Advantage program applies to your plan.

Specialty Medications and Specialty Pharmacies | Specialty medications are designed for conditions (such as multiple sclerosis, rheumatoid arthritis, hepatitis C and others) that are difficult to treat with traditional medications. These medications are self-administered and are taken orally, by injection or inhaled.

Your prescription drug plan requires you to purchase specialty medications through Accredo Health in order to receive coverage. If you use any pharmacy other than Accredo to fill your specialty medication(s), you'll have to pay the entire cost. However, when you purchase your specialty medications through Accredo, you will only have to pay your applicable copay.

To learn more about our specialty medication program, or for a complete listing of the specialty medications that must be purchased through the specialty pharmacy network, visit our website at Member.UniveraHealthcare.com. Once you log in with your user name and password, select [Prescriptions > Specialty Medications](#).

Home Delivery Pharmacies | You have an opportunity to save money on your prescriptions when you order your medications through one of our mail-service pharmacies, Express Scripts Home Delivery Pharmacy® or Wegmans Home Delivery®.

When you purchase your medications through one of these mail-service pharmacies, you can receive a 90-day supply of your medication for only two copays. ***That's a savings of one full copayment – and the savings can add up over the course of a year!***

Under your prescription drug plan, you pay the following copayment amounts through Express Scripts Home Delivery Pharmacy or Wegmans Home Delivery for a **90-day** supply:

90-day supply filled through home-delivery pharmacy

Tier 1
\$X

Tier 2
\$X

Tier 3
\$X

Start Saving with Home Delivery! Select a Mail-Service Pharmacy That's Right for YOU!

Home Delivery Pharmacy Options

Express Scripts Home Delivery Pharmacy

Go to Express Scripts and register www.express-scripts.com. When you log into your account, you'll be able to quickly fill prescriptions your doctor has sent in electronically, order a refill, check the status of orders, and find savings opportunities. Your account is private and secure.

If you have questions, call 1-855-315-5220, 24 hours a day, 7 days a week, to talk with a prescription plan specialist at any time.

Here's how:

Get started with home delivery by using our **mobile app or send in orders through the mail** (see below for mail option). Download the Express Scripts Mobile App from the App Store (appstore.com) or Google Play (play.google.com).

Download, print and mail a home delivery order form. Include your home delivery copay, a 90-day prescription from your doctor plus refills for up to one year (if applicable). The form is available at Member.UniveraHealthcare.com.

Once you log in with your user name and password, select *Prescriptions > Mail Service Pharmacy*.

ePrescribe. Ask your doctor to send your prescription electronically to the Express Scripts Pharmacy.

Wegmans Home Delivery

Call 1-800-586-6910 to set up a home delivery account.

When you call, be sure to provide the drug name along with your doctor's name, phone number and address.

To take advantage of this cost-saving opportunity, your prescription must be written for up to a 90-day supply. Additional details on how to use Express

Scripts Home Delivery Pharmacy or Wegmans Home Delivery are available at

Member.UniveraHealthcare.com. Once you log in with your user name and password, select

Prescriptions > Mail Service Pharmacy.

Safety is Our Priority | To help ensure that you have access to safe, effective drug therapy, prior authorization and step therapy requirements are applied to selected medications. We recognize that you, as a new member, may currently be taking a medication that has prior authorization and/or step therapy requirements.

As of [DATE], if you need to continue medication therapy with a drug that requires prior authorization, your health care provider will need to complete and submit our prior authorization form.

- Medications with **prior authorization** requirements means that your health care provider must contact us for approval before your prescription claim can be processed.
- Medications with **step therapy** requirements mean that you must first try a certain drug to treat your condition before we will cover any other drug for that condition. Medication therapy is organized in a series of “steps” with “step one” generally being a generic or lower-cost option and “step two” the higher-cost brand.
- Medications requiring prior authorization and step therapy are indicated on our 3-Tier Formulary Guide, which is available on our website at Member.UniveraHealthcare.com. Once you log in with your user name and password, select [Prescriptions > Check Our Drug List > View or Print Our Drug Lists > For Other Plans offered through Employers > 3-Tier Formulary](#).
