Daemen College
Faculty, Staff, and Students

Dear Faculty, Staff, and Students,

For the last two years, a major priority of the college has been to completely overhaul the institutional website, and I am delighted to report that we have just launched a new, modern, and upgraded website.

As you will see, the new site features large images and text, and has been designed for maximum navigability and bold impact. I hope you will have a chance to spend some time looking at the site in the next few weeks.

As is the case when any new website is launched, there will be glitches and errors, and we will do our best to correct these flaws as soon as possible. Please direct any corrections to the Chief Information Office, Kelly Duran, at kduran@daemen.edu.

I would like to thank the members of the Website Task Force for their hard work on this project: Michael Berta, Cathaleen Curtiss, Brita d'Agostino, Darlene DiCesare, Torsten Doering, Kelly Duran, Denise Emer, Jon Good, Linda Koller, Lynn Matthews Samantha Maiarana, Angela Milkie, Michael Morgan, Doris Murphy, Dawn Reed, Samuel Rugg, Anne Marie Taggart, Ashley Tinkey, Danielle Weaver, Jay Wendland, Isaac Williams, Paula Witherell, Thomas Wojciechowski, and John Zaepfel.

We all owe a special debt of gratitude to the Task force chair, and Daemen's Chief Information Officer, Kelly Duran, for leading the College through a process that produced our new website.

Best regards,

Gary A. Olson
President
