SPCA Wildlife Department Needs Volunteers

Do you love animals and can commit to a schedule helping at the Erie County SPCA? The Wildlife Department has an open information session on **February 2** from 11am to noon to describe their opportunities. If interested in volunteering, you will need to attend a required orientation on **February 7** from 6 to 7:30pm OR **Saturday, February 16** from 1 to 2:30pm. You must RSVP for the orientation sessions by calling Barbara Haney at 875- 7360 ext. 220 or email barbh@yourspca.org. Volunteers must be 18 or older. Info [here](#).

WNY Climate Conversations

Learn about climate change in our region and how to prepare for it, create space for climate dialogue, and hear from youth that are making a difference. This free public event is on **Saturday, February 9** from 1 to 4pm at the Burchfield Penney Art Center, 1300 Elmwood Ave., Buffalo in the Peter and Elizabeth C. Tower Auditorium. The WNY Climate Conversations are an opportunity to discuss climate change and environmental justice with the people in our networks and communities. At the end of these presentations, we hope participants will walk away with some tools and information needed to take action for climate justice and resilience in our Western NY! Registration: <https://wnymasterteachers.wufoo.com/forms/wnyclimateconversations/>

Preservation Buffalo Niagara Docent Training

Do you love historic architecture? Are you passionate about historic preservation? Consider becoming a Preservation Buffalo Niagara Docent! Docents lead our regularly scheduled walking tours as well as special school and community group tours. While a teaching background is not required, a high level of interest and enthusiasm is! Now is your time to join the ranks as PBN will be offering new docent training beginning in February 2018! This year's training will focus on all three of PBN's public tours: Queen City Downtown, Guaranty Building, and City Hall. Trainees will be able choose which tours they're interested in giving, with the option of being trained for additional tours in the future. Our first session, which will focus on Queen City Downtown, will be on **February 5th**. All classes will be at 10 am in the Market Arcade Conference Room (617 Main Street, Buffalo). Sign up and register at <https://preservationbuffaloniagara.org/get-involved/docent-training/>.

WNY Farm Show

The WNY Farm Show is **January 31 - February 2, 2019** at Hamburg Fairgrounds (5600 McKinley Pkwy., Hamburg; the-fairgrounds.com or 649-3900). Admission is free. Vendors for this year's show include feed, seed, and equipment dealers, farm service providers, and various agriculture non-profits and agencies. Info on seminars and vendors can be found at <https://www.ecfair.org/p/event/342>

Winter Wonderland at Reinstein Woods

New York State Department of Environmental Conservation (DEC), in partnership with Friends of Reinstein Woods, invites the public to celebrate “Winter Wonderland in the Woods” on **Saturday, February 9** from 12 p.m. to 4 p.m. at [Reinstein Woods Nature Preserve](#). Visitors can discover a variety of outdoor pursuits during the event. Ice-fishing demonstrations will take place throughout the afternoon and visitors will be able to try cross-county skiing in a demonstration area (weather permitting). Snowshoe rentals will also be available for those who wish to explore the trails. The event will take place regardless of snow conditions, and additional activities featuring nature experiences will be added in case of warm weather. Registration is not required for this event. There is no entry fee, but donations to Friends of Reinstein Woods are always welcome. Reinstein Woods Nature Preserve is located at 93 Honorine Drive, off of Como Park Boulevard in Cheektowaga.

Tales of Mastodons (and Others) from the Hiscock Site

The public are invited to an illustrated presentation “Tales of the Mastodons from the Hiscock Site” by Dr. Richard Laub on **Wednesday, February 13** at 7pm in the auditorium of the Gateway Executive Office Building, 3556 Lake Shore Rd. Blasdell, NY. Admission \$4, or FREE to Penn Dixie members and their guests. No registration needed. Hiscock is a paleontological and archaeological site in northern Genesee County. It was excavated by the Buffalo Museum of Science from 1983 to 2011, revealing a rich record of changing faunas, floras, cultures and environments over the past 13,500 years. From the late Ice Age, through the period of the virgin forest, to the time of European settlement, we found confirmation of much that we had expected. However, there were also many surprises!

Land Conservancy Kicks Off International Design Competition

The Western New York Land Conservancy is excited to announce the start of new international Design Ideas Competition for the DL&W corridor. Professional and student designers, architects, landscape architects, urban planners, and artists are invited to submit their visionary concepts to transform the abandoned 1.5-mile elevated DL&W rail corridor connecting Buffalo’s downtown with its waterfront through three distinct and historic neighborhoods. The competition is the next step in reimagining this former industrial space as a multi-use urban nature trail and greenway. More detailed information about the Design Ideas Competition, including the Competition Brief with goals and intended outcomes can be found on the Land Conservancy’s website at www.wnyc.org/dlw-design. Those wishing to participate in the competition must register by emailing dlw@wnyc.org. There is no cost to participate. Submissions are due by **February 15, 2019**. Winners will be announced this spring.

Sponsorships Available for 2019 Canal-Related Events

Festivals and events draw millions of people to canal communities and the Canal System each year for fun, recreation, history, music, local food, and natural beauty. The Erie Canalway National Heritage Corridor, in partnership with NYS Canal Corporation, is offering sponsorships of up to \$500 for events or festivals taking place in the National Heritage Corridor from May through November 2019. Eligible applicants include municipalities and nonprofit 501(c)(3) organizations. Applications are due by **February 15, 2019**. Find instructions and an online application at www.eriecanalway.org/resources/grants.

Volunteer-Wildlife Rehabilitator Training

AWARE (Association for Wild Animal Rehabilitation and Education Inc.) will offer classes for wildlife rehabilitation on Saturdays from **February 9, 2019 to March 9, 2019** at Starpoint Central School, 4363 Mapleton Road, Lockport, NY 14094. Hours are from 10:00 until 1:00. The first session (February 9, 16) is designed to prepare future rehabilitators or volunteers for beginning rehabilitation of wildlife. The focus will be on mammals to obtain a NYS DEC wildlife rehabilitator license. The second session (February 23, March 9) focuses on the rehabilitation of wild birds. Following each session, all students are given a certificate of completion that can be used when applying for their NYS license application and US F&W application permit. The cost will be \$100.00. All money will go as a donation to support the animals, after we pay for the classroom and handouts. Please contact Jackie: email: awarejlt@roadrunner.com or phone 716-625-8189 for more information.

Show and Share for Environmental Educators

Environmental educators of the Western Region are invited to “show and share” one of their favorite program activities with colleagues during this fun and FREE casual professional development event on **February 26** from 9:30am to 3:30pm. Socialize with other educators (experienced, retired, and new to the field!) and swap strategies, stories, and your spirit for the outdoors and education! This event is sponsored by the New York State Outdoor Education Association www.NYSOEA.org. Please pre-register by **Wednesday, February 6** by contacting Kimberly at 716-825-6397 x200 or kadriaansen@sciencebuff.org and provide your name, title, organization, and phone number. It will be held at Genesee County Park & Forest, 11095 Bethany Center Rd., East Bethany, 14054. To register contact Kimberly at kadriaansen@sciencebuff.org

Plant Sale to Benefit Reinstein Woods Nature Preserve

Friends of Reinstein Woods is accepting orders for the annual plant sale featuring wildflowers and shrubs that are native to the region. Orders will be accepted through **Friday, February 15, 2019**. The sale will raise funds to support environmental education programs offered by Reinstein Woods Nature Preserve. Orders may be placed online at www.reinsteinwoods.org/plantsale/ or by downloading a mail-in order form. Plants will be available for pickup on Saturday, June 1, 2019 from 10:00 a.m. to 1:00 p.m. at Reinstein Woods Nature Preserve, 93 Honorine Dr. Depew, NY 14043. Purchases can also be picked up on Monday, June 3, 2019 from 5:00-7:00 p.m.

Excellence in Preservation: 2019 Call for Nominations!

The Preservation League of New York State is seeking nominations for its 2019 Excellence in Historic Preservation Awards, which recognize significant achievements in historic preservation throughout New York State. The nominations must be submitted online by **February 14, 2019** (early submissions appreciated). The awards will be presented on May 9, 2019. To review the guidelines and download a nomination form, please visit the Preservation League’s website at [2019 Excellence in Historic Preservation Awards](http://www.preservationleague.org/2019-Excellence-in-Historic-Preservation-Awards)

Great Backyard Bird Count

Participate in Citizen Science and observe and report the birds that you see in your backyard. The annual Great Backyard Bird Count is **February 15-18, 2019**. Create a free account at <http://gbbc.birdcount.org/get-started/>. Count birds for at least 15 minutes on one or more days of the GBBC in as many places and on as many days as you like. Submit a separate checklist online for each new day, for each new location, or for the same location if you counted at a different time of day. Still confused? Come to the Great Backyard Bird Count at Beaver Meadow on **Saturday, February 16** at 10 am. Naturalist Tom Kerr will go over everything you need to know to participate, including beginner birding tips, choosing the right binoculars, and submitting an eBird Checklist. Binoculars will be available. Call 585-457-3228 to register. Cost: \$5. Birders from all around the world participate in this program and you don’t want to miss the biggest weekend in birdwatching.

2019 Communities in Bloom Class

Cornell Cooperative Extension of Erie County is offering its popular spring class on **February 23** from 9am to 2:30pm. The one-day seminars will feature: Landscape Design Do's & Don'ts, Garden RX, Prescription for Healthy Plants and Vegetable Gardening, Grow Your Own. Cost is \$25 - General Public. Register by **February 19** [here](#). The class will be at Unitarian Universalist Church, 695 Elmwood Ave, Buffalo, NY 14222.

Educator Development Day for Agriculture-Based Education

An Educator Development Day in Agriculture-Based Education will be held from 8:30 a.m. to 2:30 p.m. on **March 1** in the Agriculture Discovery Center on The Fairgrounds, 5600 McKinley Parkway, Hamburg. Erie County Agricultural Society in cooperation Seeds of Living Education Organization is holding this day for community garden leaders, elementary through middle school educators and anyone working in youth development. The day will offer a workshop sessions that can be taken back to your classroom or program. Lunch and refreshments are provided. Cost is \$50 with registration due by February 18. [See details here.](#)

Environmental Excellence Award Applications

If you represent a municipal government or non-profit organization in Erie County that has recently completed a project that has environmental benefits, the Erie County Environmental Management Council (EMC) invites you to nominate your project for consideration in the 2019 Environmental Excellence Awards Program. Projects could be in the areas of Planning & Design, Land Use and Zoning, Natural Resource Protection, Air and Water Quality, Ecosystem Health, Energy and Transportation, Agriculture and Forestry, Solid Waste Management, Contaminated Sites, Community Action & Education, Climate Change or any other related subject area. Applications are due by **March 15, 2019**. Applications are evaluated by a panel of reviewers from the EMC, with awards presented at an event in the beginning of May 2019. More information can be found at www.erie.gov/emc

Master Gardeners Education Day

The annual Master Gardeners Education Day is **Saturday March 16, 2019** at Classics V on Niagara Falls Blvd., 9-3. The cost is, \$45 for MG's out of county and \$55 for the public. Hot buffet lunch included. There will also be an excellent basket raffle. There are 3 excellent speakers who you won't want to miss. This day will help you with your major gardening issues, soil, insects and critter damage. Register on line at: <https://reg.cornell.edu> or call Jolie at CCE, 652-5400 ext: 176. We anticipate another sold out event so get your tickets soon.

Art of the Brick Exhibit

The Buffalo Science Museum has a visiting exhibit "The Art of the Brick" opening February 9. Named one of CNN's Top 10 "Global Must-See Exhibitions," you'll marvel at the 80+ sculptures created by artist Nathan Sawaya, including a 20-foot-long T-rex skeleton and a recreation of Michelangelo's Statue of David. Plus, experience the "The Science of the Brick," presented by AAA Western and Central New York, the hands-on LEGO brick activity area within the exhibition! The exhibit will be here until May 5. Tickets are required for this exhibit.

Spotted Lanternfly Webinars

In conjunction with the New York State IPM Program and the Department of Agriculture and Markets, the Northeastern IPM Center will host a collection of webinars, titled "Spotted Lanternfly Basics." Each webinar will focus on, and be tailored to, a specific commodity group: Hops, Berry, and Vegetable Growers (Feb. 26, 2019, 10:00 a.m.), Grape and Apple Industries (Feb. 26, 2019, 1:00 p.m.), Christmas Tree Growers (Mar. 4, 2019, 10:00 a.m.) and Nursery, Greenhouse, and Landscape Industries (Mar. 4, 2019, 1:00 p.m.). All webinars will follow a similar format that covers spotted lanternfly biology, identification, and hosts, monitoring and management strategies, and a regulatory update. While the content may be relevant for throughout the Northeast, management practices covered will be specific to New York. For more info and registration links, go to: <http://neipmc.org/go/mYey>

Webinar: Clean Energy Communities and Climate Smart Communities

A **February 27** webinar from 10 to 11:30am will demonstrate how communities can develop and utilize greenhouse gas inventories to undertake local climate action planning initiatives. It will also help clarify the relationship between New York's [Climate Smart Communities](#) Program and [NYSERDA's Clean Energy Communities](#) Program. **Registration is required to participate.** [Click here to register.](#) Achieving Climate Smart Communities (CSC) Certification is one of the High Impact Actions under NYSERDA's Clean Energy Communities (CEC) Program that local governments can pursue to save money, foster a vibrant economy, improve the environment, and demonstrate clean energy leadership. Greenhouse gas (GHG) emissions inventories and climate action plans are part of Pledge Element 2 under the CSC Program, and are key to establishing baselines and setting achievable goals. [info](#)

Hawk Creek Wildlife Rehabilitator Training

Develop a sense of appreciation for the importance of preserving native wildlife. Learn how to lend a helping hand to injured, orphaned, and distressed animals in your community. This course provides 8 hours of instruction from Hawk Creek's own licensed environmental educators and wildlife rehabilitators. Classes are hosted at 1963 Mill Rd. West Falls, NY. Register early – class size is limited! Cost includes 2 classes (a total of 8 hours) which are held **March 9 & 10, 2019** from 12pm-4pm, as well as study guides and practice exams for the state rehabilitation exam. \$100. Please note that tickets will not be mailed out for this class, upon your arrival to class we will check your name in our records. You will receive an e-mail with class materials prior to the class. Please bring writing utensil and paper for notes. <https://www.hawkcreek.org/shop/product/wildlife-rehabilitation-course>

Historic Window Rehabilitation Training and Certification Course

Preservation Buffalo Niagara is excited to announce a brand new initiative aimed at training the next generation of preservation tradespeople with our Historic Window Rehabilitation Training and Certification, which begins on **March 12**. The seven week session meets twice weekly through April 25 with two field hands-on opportunities in May. As sustainable building practices and historic preservation gain popularity, and as more and more Western New York homes are covered by significant preservation incentives, the number of older structures needing rehabilitation and restoration has skyrocketed. However, despite this clear upward trend, the number of skilled preservation trades craftspeople available for local projects has not kept pace with the market demand for these unique and highly technical services. PBN's new Traditional Building Trades Program is designed to address this critical need and is suitable for contractors, students, and professionals, as well as anyone interested in enhancing their training in the rehabilitation of historic properties. [Info and registration.](#)

Annual Tree Seedling and School Program Orders Due

Erie County residents can [order](#) select species of trees and shrubs until **March 15** with pick up on April 27. Niagara County residents can [order](#) trees until **March 9** with pick up April 26 or 27. Schools (K-12 and colleges) may receive bundles of trees to be planted on school property. Planting and caring for a tree seedling can help young people learn about the natural world and the value of trees in it. DEC's School Seedling Program provides New York State students with this experience. DEC's Saratoga Tree Nursery will have several different species available for participants in this program, [School Seedling Brochure and Order Form \(PDF\) \(100 KB\)](#) is available for downloading. Only one of the options below may be ordered by each school, each year.

Botanical Garden Volunteer Orientation

There are lots of opportunities for volunteers at the Buffalo & Erie County Botanical Gardens. If you want to learn more about the options, attend the next orientation on **March 14** from 10am to 2:30pm. Please register by **March 4** by contacting Karen at khammer@buffalogardens.com or 827-1584, ext. 207.

51st Annual Gem, Mineral and Fossil Show

Buffalo Geological Society's 51st Annual Gem, Mineral and Fossil Show will be **March 23-24, 2019**, at the Erie County Fairgrounds in the Grange, Market, and New York State Police Buildings in Hamburg, NY, from 10 am-6 pm on Saturday and Sunday, 10 am-5 pm. This annual show provides an instant museum of Buffalo Geological Society Members fossils, minerals, and jewelry; demonstrators; the famous Mini-Mine for young collectors; mineral and fossil identification; and a variety of non-profit exhibitors. This highly educational family event affords attendees the opportunity to interact with demonstrators who work with minerals and gems. This is a perfect family field trip to learn more about the geological sciences. Boy Scouts, Girl Scouts, students, teachers, the public, and rock hounds are welcome. Adults are \$6 each, scouts in uniform and children under 12 are FREE. A 2-day admission for \$9 each is also available. Door prizes are drawn hourly. FREE parking. Wheelchair and stroller accessible. For any additional information or questions, please contact Jerry Bastedo, Show Chairman, at jcbastedo@gmail.com.

NY Geothermal Renewable Heating and Cooling Conference

The 5th Annual NY-GEO Renewable Heating & Cooling Conference at the Rivers Casino & Resort in Schenectady, New York will be held on **April 10th & 11th**, 2019! [Register](#) before **January 15th** to get an early bird discount ! Join us for a [fantastic program](#) that will help policy makers, installers, organizers, architects, clean energy activists, contractors, building owners and managers, engineers and more to plug into the renewable heat momentum building in New York and across the northeast! There are [scholarship funds](#) for students and low income individuals, but those funds will run out soon. Email nygeoinfo@gmail.com if you will attend but need a scholarship to pay part of your registration.

Community Organizations: Do you have a Research Need?

Are you a community partner **with a research need**? We would love to help connect you to researchers or graduate students who are interested in working to help find local solutions to questions you have or trends you're looking to explore. If you are a researcher or graduate student looking for a project, we can connect you with meaningful research opportunities. Contact buffalocommons@cornell.edu for more info.

Lunenfeld Beautification Grant Applications Due

Beautification Grants are available to block clubs and community groups for garden-related projects within the Garden Walk Buffalo footprint (which now includes the Park Meadow and Parkside neighborhoods!). The deadline is **February 28**. [Apply Now >](#)

Matching Herbs to Body Type: 5 week series

In this five week class from **February 6 through March 6**, Community Herbalist Sarah Sorci will borrow from traditional western herbalism, Indian Ayurvedic medicine, and Chinese Medicine to teach how to match herbs to one's body "type" or tendencies. The classes will be held at EMPact America on Wednesdays from 6 to 7:30pm at 7615 Seneca St., East Aurora. [Click here to register](#).

Pollinator House Competition

Gardens Buffalo Niagara and the Buffalo Architecture Foundation are holding a design build competition for pollinator houses – for bugs, bees, birds, butterflies, and bats – as a benefit for both organizations. All are welcome – students, designers, artists, clubs, groups, carpenters, cooks and bottle washers! Entries due by **May 15**. [Learn More](#)

Dig with the Experts

Tickets are on sale for Penn Dixie's signature event — Dig with the Experts! This is our very popular, once yearly opportunity to unearth the best, most complete, and most unexpected fossils at Penn Dixie. This often sells out. [Info](#) Tickets are available for **Saturday May 18 and Sunday May 19** with a weekend pass option.

2018 WAVE Data

The 2018 WAVE samples have been processed, tallied, summarized, and posted. Everyone who submitted a WAVE sample should have received a personalized email with their sample results. All the data are compiled in a google map for general consumption on the WAVE "Forms and Data" web page: <https://goo.gl/PgX2CM>

The Foundry Offers Hands-on Classes: Build your own Furnishings

Want a new skill? The Foundry, 298 Northampton St. in Buffalo, offers artisan classes including glass blowing, leatherworking, upholstery and woodworking. To check out the full list of classes, [click here](#).

Food Donation and Scrap Laws and Regulations

In partnership with Harvard Food Law & Policy and Center for EcoTechnology, four legal facts sheets have been created to address common legal questions about food donation and food scraps diversion in New York State. These fact sheets should dispel some concerns about liability related to food donations and encourage more businesses to share surplus goods. Food waste is a major environmental issue, so keeping it out of landfills is important. These fact sheets explain both federal and New York State laws and regulations including: [Tax incentives for food donation](#), [Liability protections for food donors](#), [Date labeling requirements for food packaging](#), [Feeding food scraps to animals](#).

Adopt-a-Horse: Support the Solar-Powered Heritage Carousel

A solar-powered historic carousel is planned for Canalside in 2018. The Buffalo Heritage Carousel, Inc. is currently restoring the 1924 Spillman carousel which features 34 hand carved and painted animals and 3 chariots, with most currently needing restoration. Consider adopting one of the animals or contributing to the efforts of the project. For info, visit <http://buffaloheritagecarousel.org/>

Reuse Action in Action: Source for Reusable Materials

Reuse Action helps deconstruct buildings to return building materials to the supply chain. Check out the video [here](#) for their recent work. The store will also take your used furniture, cabinetry or building supplies. Don't send them to the landfill, donate them to Reuse Action. Check out their website at www.reuseaction.com, call the store at 716-894-3366, or stop by 980 Northampton Street or their new location at East Aurora Flea Market on Big Tree Road, just west of the Village of East Aurora on Saturdays and Sundays. Profits from sales put people to work!

Hemlock Woolly Adelgid Educational Video

The New York State Hemlock Initiative is sharing an educational video to inform the public about their efforts to conserve New York State's hemlock resources in the face of multiple threats, particularly that posed by an invasive pest, the Hemlock Woolly Adelgid. Mortality due to Hemlock Woolly Adelgid (HWA) in New York has increased at an alarming rate recently. For info, visit [here](#). View video at <https://www.youtube.com/watch?v=AupnMjYaIQQ>.

DEC Announces Fourth Round of E-Waste Recycling Grants for Municipalities

A fourth round of grant funding from the Environmental Protection Fund (EPF) is being made available to help municipalities across the State address costs associated with the collection and recycling of eligible electronic wastes (e-waste). DEC will accept applications for this funding opportunity **no later than February 28, 2019**. These grants will help mitigate financial pressures some local governments face in collecting and properly managing e-waste. Municipalities may receive reimbursement of up to 50 percent of eligible expenses incurred for recycling of e-waste between January 1, 2018, through December 31, 2018. Application materials, guidance documents, and [important information for Electronic Waste Assistance Grants](#) are available on DEC's website.

Citizen's Guide to Land Use and Zoning

Partnership for the Public Good just released Land Use and Zoning Law: a Citizen's Guide. This handbook was written by Arthur Giacalone, an attorney with many years' experience in land use law. It is a basic overview to help the public understand the zoning and land use development process. Zoning and land use decisions have major impacts on the well-being of a community. The purpose of this handbook is to help individuals and groups in Buffalo and Erie County understand land use and zoning law, terminology and procedures so they can more effectively express their concerns about proposed projects or changes in land use laws. Download [here](#).

MAP Farmhouse & Community Food Training Center Now Open

Massachusetts Avenue Project recently opened their new Farmhouse & Community Food Training Center at 387 Massachusetts Avenue on the city's West Side. The Farmhouse will be the main hub for MAP's urban farming efforts, including their aquaponics system and greenhouses, as well as 3,000 square feet of cold and dry storage for farm produce and stocking their Mobile Market truck. The center will also provide employment, training and leadership opportunities for youth participating in MAP's Growing Green youth entrepreneurship program. With a state-of-the-art commercial kitchen that includes teaching spaces for visitors and volunteers, MAP will provide West Side residents with increased access to healthy, locally grown food and class on cooking, nutrition, and cooperative food preparation.

Guide to Talking about Climate Change with Kids

"*Beginning the Climate Conversation: A Family's Guide*" will help you talk to your kids about the climate crisis by providing tips on how to start the conversation, deciding on age-specific information and moving the conversation from dangers to solutions. Download the free guide at [link](#).

"The Story of Plastic"

The makers of "Story of Stuff" are finalizing a full-length film on the "Story of Plastic". To see a mini-documentary from the film, visit <https://www.youtube.com/watch?v=PBhkv9DQFQ&feature=youtu.be>

Current NY Environmental Bills List

Every week during the New York State Legislative Session, Environmental Advocates of New York reviews all of the bills introduced in legislative committees or on the floor of the State Senate and the Assembly. They then issue a memo that summarizes the legislation and describes our position on measures with significant environmental impact. If you would like to sign up for this listing, you can see the status of New York State legislation and can take action on those that are important to you. <http://eany.org/our-work/bill-ratings>

Using CO2 Emissions

Researchers at MIT have created a new method of turning carbon dioxide emissions from power plants [into a useful product](#). The resulting substance could be used as fuel for cars, trucks, and planes, as well as chemical feedstock with a large variety of applications. The system uses a membrane made from a compound of lanthanum, calcium, and iron oxide. It works by allowing oxygen from carbon dioxide to pass through while leaving carbon monoxide on the other side. The scientists behind the project report that the membrane is 100 percent selective when it comes to oxygen. The separation process is driven by extremely high temperatures, with a high of 990 degrees Celsius. While high temperatures are needed, energy could be supplied by solar energy or waste heat. Visit <https://futurism.com/carbon-emissions-mit>

New *Our Farms, Our Future* Podcast Series: Voices in Sustainable Agriculture

From coast to coast, a diverse community of farmers, ranchers, scientists and educators is working to shape a sustainable future for our food system. Listen to the new [Our Farms, Our Future podcast series](#) and join this community for intimate conversations about the state of agriculture, how we got here and where we're headed.

NYSERDA Farm Energy Audits

NYSERDA offers free energy audits to identify energy efficiency measures for eligible farms and on-farm producers, including but not limited to: dairies, orchards, greenhouses, vegetable growers, vineyards, grain dryers, and poultry/egg. Farms must be customers of a New York State investor-owned utility and contribute to the System Benefits Charge (SBC). Please check your farm's current electricity bills to determine if you pay SBC. Farms can request an energy audit through the Agriculture Energy Audit Program. NYSERDA will assign a Flexible Technical Assistance (FlexTech) Consultant to perform an energy audit.

NYPSC and PSI Receive NY Sea Grant Funding to Reduce Plastic Pollution in the Buffalo Niagara Region

New York Public Service Commission (NYPSC) and Product Stewardship Institute (PSI) received funding from the NY Sea Grant to help restaurants, residents, and tourists in the Buffalo Niagara region make smart foodware choices by replacing disposable plastic products with alternatives that are compatible with existing city recycling/composting infrastructure. The project will result in an educational toolkit that will provide resources for other restaurants, governments, and tourism organizations across the United States. This project builds upon a previous NYPSC and PSI pilot project in Greenport, NY on the North Fork of Long Island. The impressive plastic reduction and cost savings achieved by local restaurants in Greenport are featured in the [Plastic Reduction Guide for Restaurants](#).

Van Valkenburgh to reimagine Buffalo's LaSalle Park

Michael Van Valkenburgh Associates has been selected to redesign LaSalle Park on Buffalo's Lake Erie waterfront. Announced earlier this week by the Ralph C. Wilson, Jr. Foundation, the decision advances a \$50 million investment in the 77-acre park as the new Ralph C. Wilson, Jr. Centennial Park. The UB Regional Institute along with Dean Robert Shibley and several faculty organized the engagement of more than 1,000 citizens and led a community stakeholder group tour of successful park projects in Cincinnati, New York, and Chicago. The firm will use the [institute's report](#) on community expectations as a guide during the initial design phase. Read coverage in the [Architect's Newspaper](#)

Plan Ahead for Nature Trips

Earth Spirit Education is offering summer wildlife adventures. In August, 2019, they have trips planned for Yellowstone National Park and the Adirondacks. Info and registration at <https://earthspiritedu.org/excursions/>.

DEC's Climate Smart Communities Grants

DEC's Climate Smart Communities Grants Program has awarded \$7.3 million to municipalities across the state as part of Regional Economic Development Council (REDC) Awards. Established in 2016, this 50/50 matching grant program for municipalities supports climate change adaptation and the local reduction of greenhouse gas emissions. The grants also provide support for communities seeking to become State-certified Climate Smart Communities, 245 municipalities have adopted the pledge to become registered [Climate Smart Communities](#) and engage in programs to increase energy efficiency, reduce greenhouse gas emissions, and promote renewable energy and a green economy. The 2018 Climate Smart Community Awards are listed on the Office of [Climate Change funding page](#). In Western New York, Erie County received \$79,968 for Climate Smart Communities Certification Actions which will be used to complete the following Climate Smart Community certification actions: community climate action plan, bicycle master plan, fleet inventory, and update/adopt policy's regarding fleet efficiency, complete streets, and construction waste. The village of Sherman received \$18,000 for its Climate Smart Comprehensive Plan which will incorporate policies and actions the village can undertake to mitigate the effects of extreme weather events, reduce greenhouse gas emissions, revitalize its business corridor, protect wastewater and stormwater infrastructure, and maintain its connection to nature, while stimulating sustainable economic development and improving quality of life.

“Give your Stuff Away Day” Seeking Host Communities

Got Stuff? Mike Morone is looking for municipalities within New York State to partner with and host pilot "Give Your Stuff Away Day" events in 2019. These are fun giveaway/recycling events. So far, a few communities nationwide and one in the UK have conducted "Give Your Stuff Away" type events, (<http://giveyourstuffaway.com>). If your area is interested in discussing a possible pilot, please contact Mike at (585) 749-5107 or mikemorone@gmail.com.

Batteries: What do I do with them when they no longer charge?

Different battery sizes and materials make recycling and/or recharging problematic. For batteries that are marked as rechargeable, they can be recycled at most retail locations that sell them, and retailers are required to provide signage and collection containers in easily accessible locations. Consumers are encouraged to utilize these take-back programs. Types of rechargeable batteries covered by the NYS Rechargeable Battery Law include Ni-Cd, sealed lead, Li-ion, Ni-MH, any other such dry cell battery capable of being recharged and battery packs containing any of the previously mentioned batteries. You can also check with your municipality or local recycling coordinator to see if any special programs are being offered in your area. Organizations and businesses can purchase a box to collect used batteries and then the box can be mailed back to the company for recycling. For non-rechargeable batteries, there is not currently a mandated take-back recycling program. Consumers can inquire with their local municipality or local recycling coordinator to see if any special programs are being offered in their area. Otherwise, non-rechargeable, single-use batteries may be put in your regular household trash and should **not** be taken to drop-off events.

Business Membership Program to Encourage Greener Commuting

Go Buffalo Niagara, a Transportation Management Association serving Erie and Niagara Counties, has launched a [business membership program](#) which encourages people to commute without a car. Once a business is signed up, its employees who choose to walk, carpool, bike, or take public transit to work will have access to myriad alternative transportation incentives, such as: discounted transit passes and preferred parking for carpools, guaranteed ride home which provides those who don't drive alone with a free ride home in case of emergencies, discounted memberships to [GObike Buffalo](#) and [Reddy Bikeshare](#) and monthly raffles for commuters who log their commute trips.

DEC Seeks Assistance in Locating Black Bear Dens

This winter, DEC wildlife biologists are seeking the public's help to learn about new black bear dens throughout New York. As part of DEC's ongoing monitoring of black bears in New York, wildlife biologists periodically check on black bears during the winter den season. The bears may be fitted with a radio collar to help biologists track the bears' activities throughout the rest of the year and to relocate dens in subsequent years for monitoring cub production, condition and survival. [Read the full article](#) in this week's Hunting & Trapping Newsletter to learn how hikers and others can help DEC identify den locations. To read more stories like this, [sign up for the Hunting & Trapping Newsletter](#) now!

Electric Vehicle Charging

Want to learn more about electric vehicles and how you can recharge them at home? Have your questions answered so you can make informed choices for future vehicle purchases. Info at [Home charging for e-vehicles](#).

Water Quality Improvement Grants Awarded

The 2018 Regional Economic Development Council (REDC) annual competitive funding program awarded more than \$103 million in grants to 124 projects that will improve water quality, reduce the potential for harmful algal blooms (HABs), and protect drinking water across the state. The grants are administered by DEC. Local recipients include the Western New York Land Conservancy, Inc. for the Mossy Point Forest Land Acquisition for Source Water Protection Project, Town of West Seneca Sanitary Sewer Overflow Improvements Phase 5 & 6, Erie Wastewater Treatment Improvement, Buffalo Niagara Waterkeeper Niagara River Source Water Protection Land Acquisition for Source Water Protection, Erie Land Acquisition Projects for Source Water Protection, Village of Akron Village of Akron Wastewater Treatment Plant Disinfection, Erie Wastewater Treatment Improvement, Town of Tonawanda for Sewer Improvement, Town of Amherst Park Green Infrastructure areas, Sloan Sanitary Sewer Overflow Improvements, Town of Cheektowaga Sanitary Sewer Overflow Improvements, Erie Wastewater Treatment Improvement, Village of Lancaster Sanitary Sewer Overflow Improvements, and Buffalo Sewer Authority. WQIP grant recipients will receive up to 75 percent of the project costs for high priority wastewater treatment improvement, non-agricultural nonpoint source pollution abatement and control, land acquisition for source water protection, salt storage, aquatic habitat restoration, and municipal separate storm sewer system projects. EPG grant recipients will receive up to 80 percent of the eligible engineering planning costs.

Geothermal Heating and Cooling, Domestic Hot Water: No Money Down

GroundUp: Geothermal Alliance of Western New York is leading the charge to bring Geothermal Heating and Cooling into every home in Western New York with its new \$128/month and \$0 money down financing option. This offer is for any qualifying homeowner looking to build a new home or replace their existing heating and cooling system in their current home, and usually covers houses up to 4,000 sqf with good insulation. The New York State Energy Research and Development Authority (NYSERDA) has up to \$15 million available through June 2019 for the installation of ground source heat pump systems for residences, businesses and institutions. Rebates are available to qualified installers for two years or until all funds have been exhausted. The rebate will be deducted from the total cost of the system, thereby passing the savings along directly to consumers. To learn more contact <https://www.groundupgeo.org/contact>.

Farm to School Lunch Funding Increased

Farm-to-School programs across New York have received \$1.5 million awards. The funding has been awarded to 18 projects and educational organizations that serve students in Kindergarten through Grade 12, and will benefit over 420,000 students. The award funding will be used to hire Farm-to-School coordinators; train food service staff; provide nutrition education in classrooms and cafeterias; purchase equipment to support food preparation; and support the purchase of more local farm products, such as fruits and vegetables, nuts, and herbs, used in school lunches. The program increases the volume and variety of locally grown and produced food in schools, improves student health and educates young people about agriculture, in addition to providing new markets for New York's farmers. The program also supports the expansion of the NY Thursdays Program, a school meal initiative that uses local, farm-fresh foods on Thursdays throughout the school year. A full list of project descriptions is available [here](#). In Western New York, funding was awarded to Cornell Cooperative Extension of Niagara County, Wellsville Central School District, Franklinville Central School District, Forestville Central School District and Cornell Cooperative Extension of Erie County.

Your Guide to Farmer Grants in the Northeast

Farm Credit East compiled a comprehensive report of farming grants offered in the northeast. The report is organized by first listing federal/regional grants, and then by state. However, federal resources are applicable to all farmers. Review [here](#).

Dissolvable Batteries?

Iowa State University researcher Reza Montazami has developed a technology that could someday make recyclers' jobs easier and more profitable. Using a solvent, he and his team have figured out how to fully dissolve a lithium-ion battery in minutes compared to the hours to days it takes to break them down with conventional heat or chemical practices. For more info on this research in progress, visit [here](#)

New Resources Available to Reduce Hazardous Waste & Save Money

DEC has developed a resource guide for hazardous waste generators to reduce waste and save money. Resources include archived webinars presented by the New York State Pollution Prevention Institute (NYSP2I) on topics such as How Your Facility Can Reduce Hazardous Waste and Save Money and Best Practices for Sustainable Manufacturing. <http://www.dec.ny.gov/chemical/110901.html>

The 2019 Erie County Rain Barrel Painting Contest is in full swing!

Open to schools and student-based community groups in Erie and Niagara counties, this painting contest is held annually in honor of Earth Day. Paint your rain barrel focusing on a theme of stormwater pollution prevention and/or recycling rainwater. All participating schools will retain their final painted rain barrels to use, donate or raffle as desired. We encourage teachers to incorporate environmental lessons in the classroom wherever possible on conserving resources, recycling rainwater, stormwater pollution prevention, and reusing materials for a sustainable planet. [Register](#).

Calling all NY State School Teachers and After School Program Leaders!

The New York Connect Kids to Parks Field Trip Grant Program will refund up to \$1,000 of field trip costs per classroom, per trip to DEC or State Parks land. Grants are available on a first come, first served basis. Grants refund field trip costs including transportation, program fees, entry fees, and/or pavilion fees, but cannot reimburse chaperones who travel separately.. Learn more at [Connect Kids to Parks Field Trip Grant Program](#) and [view the application online](#). If you have questions, please call (518) 474-6736.

Olive Pits Could Help Replace Plastic

Turkish scientists may have created a product that could replace disposable plastic, from a renewable source, olive pits. According to researchers, just one kilogram of this bioplastic, which is already being used in electronics and food packaging, reduces carbon dioxide emissions by six kilograms. If implemented on a larger scale, the innovation could significantly help in the fight against plastic pollution. [info](#)

Bendable Concrete: Pothole and Earthquake Solution?

Engineered Cementitious Composite, ECC for short, or simply "bendable concrete" was originally developed in the early 1990s by Dr. Victor Li, a civil and environmental engineering professor. While currently four times more expensive than regular concrete, ECC has 300 times more deformation capacity and more than two times the flexural strength. The increased cost is due to the micro silica sand used and polyvinyl alcohol (PVA) fiber. A team at Louisiana State University has found more reasonably priced and locally-sourced materials that can provide the same benefits at a fraction of the price by using fine sand from the Mississippi River rather than micro silica. They have also used PVA fiber that lacks the usual oil-based coating and locally available fly ash rather than conventional concrete, keeping costs 2.5 times what regular concrete would and only half the amount of concrete is needed for the same function. When reduced repair and replacement costs are factored in, the increased costs are reduced even further. The material is resistance to cracking and the chloride from road salt has a much tougher time penetrating and corroding the metal supports beneath it (ie on bridges and overpasses). Best of all, ECC can be used as a patch over existing concrete, improving its resilience without requiring the entire structure be torn down and rebuilt. Let's hope continued advances bring this to reality. Read more at <https://www.engadget.com/2019/01/16/lsus-bendable-concrete-could-fix-americas-crumbing-infrastruc/>.

Recycled and Biodegradable Fabric Aims to Reduce Microfiber Problem

Primaloft Bio insulation and fabric is made from 100% recyclable polyester, but also is 100% biodegradable. The company wanted to address the issue with microfibers in our landscape. Their proprietary process incorporating nutrients for microbes allows the material to break down in a landfill or the ocean in about a year. A number of major clothing companies are now using their fabric. Read more at <https://www.fastcompany.com/90297349/this-microplastic-biodegrades-instead-of-sitting-around-for-hundreds-of-years>

Unlocking Impact: Keys to Successful Partnerships

Unlocking Impact: Keys to Successful Partnerships is a learning conference designed to elevate thinking, ideas and practices that can create positive shifts in the work we do in our community. Hosted by the WNY Service-Learning Coalition on **Friday March 1, 2019**, the conference brings community champions, practitioners, faculty, staff and administration, and students together to share and explore the partnerships created and the positive impact they have made. Highly interactive sessions will provide many opportunities for participants at all levels of experience and interest to be engaged in both learning and discussion. Attending the conference is a great reward, a chance to refuel and a not-to-miss experience for anyone committed to the work they do in the community both today and in the future. [Registration is now open for attendees at the \\$35 member institution rate.](#)

Green Schools Digest-Free e-book

In this e-book you'll learn some of the leading sustainability strategies being employed by education facilities across the United States. From daylighting to onsite power generation to green cleaning, you'll glean new ways to make your school or university leaner, greener, and more attractive to environmentally-minded students and faculty, as well as your community. To download, visit https://eb.informabi.com/Green-Schools-Digest?code=UM_Email091318ACTIVE

Regional Science Fair Registration Open

The Western New York Regional Science and Engineering Fair (WNYRSEF) will be held on **March 23, 2019** at D'Youville College (Porter Ave, Buffalo). Online registration closes **February 15**. The student and sponsor will find the WNYRSEF [FAIR GUIDE](#) useful in preparing for the [online registration](#) process.

National Survey of Science and Mathematics Education (NSSME+) Released

A must read for educators, administrators, and all STEM education stakeholders. The [2018 National Survey of Science and Mathematics Education](#), first conducted in 1977, identifies trends in science and mathematics and provides key data about the characteristics of the mathematics, science, and (starting this year) computer science teaching force; commonly used textbooks and programs and how they are used; influences on teachers' decisions about content and pedagogy; formal and informal professional learning opportunities; and how resources are distributed among schools.

Case Studies in Science Workshop

This summer's Case Studies in Science Workshop will be held **May 20-24, 2019** on the campus of the University at Buffalo, State University of New York. Our five-day workshop focuses on training science faculty (all levels) to teach with case studies, to write their own cases, and to assess their students' learning with cases. During the final two days of the workshop, all participants are required to teach a case before a student audience using a case they have developed during the workshop. In addition, workshop participants are expected to produce a case study within six months of the workshop for our national, peer-reviewed case collection. Past workshops have included faculty from biology, chemistry, physics, astronomy, computer science, mathematics, geology, psychology, anthropology, nursing, science education, dentistry, engineering, medicine, and other science-related disciplines. The registration fee for the workshop is \$975.00. Detailed information including online registration is at <http://sciencecases.lib.buffalo.edu/cs/training/workshops/>

Earth Day 2019 Campaign

We invite you to join our [Earth Day 2019 campaign](#) to respond to the threats that are affecting the survival of all species, including our own. If you are ready to take the lead in educating and activating others or take direct action, here are some suggestions for you: Climate Education Week will start on Monday, April 15th ([Climate Education Week Toolkit](#)), Earth Day is April 22 ([Earth Day Organizers Toolkit](#) and the [Protect Our Species Primer and Action Toolkit](#)), and mobilize your college campus ([MobilizeU Toolkit](#)).

Teacher's Resources

[Racing Extinction](#)-Curriculum on endangered species.

[The Wild Classroom](#) curriculum from World Wildlife Fund (WWF) explores global environmental issues for a better future by building off the inherent concern for animals that humans possess. Each lesson in the curriculum teaches students an essential conservation concept through a fun and captivating activity linked to a particular wild animal.

[Communicating Climate Change](#) is a free resource to help educators engage with individuals on climate change.

[Invasive Species Curriculum](#) released by DEC and partners for middle school students (grades 6-8) is aligned to the New York State P-12 Learning Standards. The two-week curriculum was designed to have students gain a better understanding of invasive species and their impacts through research and hands-on projects.

[STEM Teaching tools](#)-free tools from site maintained by US government.

[Free Water Curriculum by UgMO](#)- water conservation curriculum for K-12 students and sponsors the students implementing those initiatives. Available to any interested student, class, club or school who wants to explore water conservation at their school.

[An Incredible Journey](#) children's book introduces elementary schoolers to the salmon life cycle and concepts such as ecosystems, keystone species, salmon culture, and stewardship. The book concludes with six case studies about kids who are making a difference on salmon-related issues.

[World Climate Simulation](#) is a NSF-funded, research-based program gives educators a way to provide learners with an enjoyable meaningful experience and to make a difference in the real world.

[Orangutan Gang](#)-Lesson includes an introductory video, PowerPoint presentation, discussion, informative article and corresponding short-answer questions, and homework including online research and an activity with the goal of helping students realize just how much palm oil they use in their everyday lives.

[New GPS-STEM Lessons](#)-Engage formal and informal students in real-world applications of STEM concepts inspired by GPS.

[Soil Story Curriculum](#)-Kiss the Ground's middle school curriculum aims to foster a deeper understanding of the vital role soil plays for the planet and to inspire a new generation of people to better engage with the environment and their communities.

[The Blossoms, the Birds and the Bees: a pollination investigation for Pre-K - Grade 2](#)-This playful lesson plan includes three hands-on activities designed to grow young learners' understanding of the relationships between plants and pollinators, and spark their interest in these important living things. Students will play a matching game to discover why hummingbirds, bees, and butterflies choose the flowers they do, "fly" pollinators around the classroom in search of nectar, and use their senses to explore diversity in nature. This lesson plan is made to be adapted, and includes suggestions for extensions and additions to fit the needs of every classroom.

[Animals and Plants Can Live in a City](#) for Grades K-2. Students learn that animals need air, food, water, and shelter, while plants need air, sunlight, and water. Students watch videos and engage with drawing and sorting activities to reinforce their learning.

[How Disruptions Affect Animal Populations](#) for Grades 6-9. Students explore the effects that ecosystem disruptions can have on animal populations and the impacts that a shift in the population of one animal can have on others in an ecosystem.

[Deciding Your City's Energy Future](#) for Grades 9-12. Students watch videos adapted from NOVA: Treasures of the Earth: Power and analyze data provided in graphs and maps concerning the availability, cost, reliability, and environmental impact of different energy sources.

[The Frogs of Panama](#)- Engage students in authentic science research or explore biodiversity and conservation issues in the classroom with outreach materials developed by scientists/educators studying frogs at the Smithsonian Tropical Research Institute in Panama.

[Climate Change Timeline](#) describe early science leading up to the discovery of climate change.

[Climate Change Interactives](#) allows users to enter their location and see some of the direct local effects likely with climate change.

[Educator's Guide to Marine Debris](#)- also available in Spanish, easy-to-use guide is designed to provide maximum flexibility for educators in both formal and informal settings.

[Educational apps for Middle and High School Students](#)

[Education apps for Elementary Students](#)

[DEC's I Fish NY Program's K-12 lesson plans about fishing, including specific ones for outside the classroom](#)

[DEC's Environmental Education K-12 lesson plans](#)

[Educational Resources on Black Bears](#) contains 29 lessons for students in kindergarten through 8th grade. The self-contained computer program is full of puzzles, computer games, special bear movies, quizzes, and interactive learning activities.

[The Northern Forest Atlas](#) is a free, online resource cataloging the plant diversity of the Northern Forest (NY, ME, NH, VT, MI, MN, MA). Includes stunning photos, charts, and videos.

[Five Gyres Curriculum](#) -Next Generation Science Standards (NGSS) Educational Curriculum, piloting on Lonely Whale's Catch the Wave platform.

[LearnHowToBecome.org](#) is a comprehensive website for students and other young professionals to find and explore resources related to a variety of careers. It includes sections on career types and paths, colleges, online education, and a resource center.

[KoiKiwi](#) is an educational website with fun environmentally friendly games. Play puzzle games, action games, shooting games (shooting GHG molecules for instance!), rubbish cleaning games, recycling games and others.

[Using Environmental Issues Forums \(EIF\) to Enhance Deliberation: Case Studies](#)-This publication documents, through a series of case studies how educators have developed locally relevant EIF materials, reflect on their experiences holding forums for a variety of audiences, and report assessment results.

[EPA Activity Book for Elementary Age Students](#)-How do you describe to students what the EPA does? This newest activity book for elementary age students to help introduce them to EPA. Kids can learn about the different ways the EPA works to protect our environment and our health. It's a simple, straightforward guide suitable for children of all ages.

[Botany Primer: Understanding Botany for Nature's Notebook](#)- designed to help observers make reliable plant observations for submission to the Nature's Notebook citizen and professional science program. It covers basic botany, phenology vocabulary and the USA-NPN's plant phenophases. It is also very appropriate for those interested in simply learning more about botanical terms and concepts, separate from participation in Nature's Notebook.

[Solar Ovens & Design Critiques](#)-In this unit, students design, build, and test solar ovens.

[Conservation Connect](#) is a web-based video series produced by the U.S. Fish and Wildlife Service, National Conservation Training Center (NCTC). Our goal is to connect a new generation of conservationists, ages 8-16, with the great outdoors, wildlife species, and conservation careers. Conservation Connect is available to youth groups, schools, homeschoolers, nature centers, and other educational programs throughout the country, free of charge.

[Humpback whale activity books](#)- Learn about whales and their migration.

[How can teachers get students to learn science from each other](#)-By communicating science, students can reinforce and help others learn.

[Sky, Water, Earth: self-paced online science activities for youth](#)- collection of free, online, self-paced activities that are designed for youth between the ages of 16-22 who are interested in the field of science.

[High School Teacher's Guide for Climate Choices: How should we meet the challenges of a warming planet?](#)

[Middle School Teacher's Guide for Climate Choices : How should we meet the challenges of a warming planet?](#)

[Project GRACE](#)- To prepare youth in economically disadvantaged communities for the prospect of careers in science, technology, engineering, or mathematics (STEM) through Geographic Information Systems (GIS).

[FoodSpan](#) is a free, downloadable curriculum that provides high school students with a deep understanding of critical food system issues, empowers them to make healthy and responsible food choices, and encourages them to become advocates for food system change.

[Climate Change and the Water Cycle: Four Big Questions Answered](#)-Free e-book. Dramatic changes to our planet like glaciers calving into the sea and record-setting temperatures make front page headlines around the world. But while other disruptions caused by the climate crisis – such as the transformation of our planet’s water cycle – are a little less immediately striking, they can be even more profound and far-reaching. The consequences can also seem confusing and contradictory. How is it even possible that climate change increases our risk of both heavy rains and extreme droughts?

[PollinatorLIVE: A Distance Learning Adventure](#)- resource that aims to meet national science education standards and promoting conservation action through education. PollinatorLIVE has lesson plans, web seminars, and information to increase the understanding of pollinators and their importance.

[Nature's Lights](#) explores how light is essential in the natural world, and how and why animals that live in the dark produce light via bioluminescence so that they can find food and communicate with others.

[Guess the Pollinator](#) is a fun creative activity which teaches students that certain animals have preferences for a flower type, color, shape or smell. Using the Coloring Sheets, students will colour in a chosen flower, then use the facts written underneath to match their flower up with its pollinator.

[Design a Flower](#) teaches students about what pollination is and how it happens. Using what they learned, students will then receive a card with a specific pollinator on it and will be asked to design the perfect flower for them.

[Seeing Red](#) teaches students about frequencies of light and how different colored light is absorbed or transmitted by colored filters. They will also discover how some animals use bioluminescence and color perception to outsmart prey.

[Materials Science and the Problem of Garbage](#)-Equip students to make informed choices about materials use and disposal with a series of lessons in which they investigate the technological and engineering ingenuity involved in making materials—and also the environmental ramifications.

[Water Agriculture Sustainability](#)-InTeGrate provides this three to five-week module that provides a framework for students to learn about how people interact with water, peer into our water future, and consider ways we might foster more sustainability in water management. After assessing our major water challenges, the module has students learn about the concepts of water sustainability, virtual water trade, and water footprints. The focus then turns to the interplay between agriculture and water resources, as agriculture has the greatest impact on freshwater consumption and quality.

[Remember the Rainforest](#)-free resources for K-12 with images of rainforest ecosystems for awareness.

[Cornell Webinars](#) -Our free webinar series covers topics like bird-friendly gardens and bird communication.

[Book Guide for On Bird Hill](#)- Our free guide for grades K–2 turn [this charming book](#) into lessons in science, art, math, and literacy.

[Edible Learning Lab](#)-curriculum allow kids (K-12) to manage the food production process from "Lab to Table".

[PLT Online Professional Development for GreenSchools](#)-6 learning hours of professional development for formal and informal educators.

[Green Schools Membership](#)- Free for Teachers, educators, students, and administrators. Access to lots of resources.

[Greening STEM](#) -infographics, toolkits, activity guides, and video resources contain free educational material in popular environmental topic areas that incorporate elements of STEM. Many of the activities and resources include project-based learning, service-learning, and citizen science components.

[Flipside Science](#) is a youth-powered series that tackles complex environmental topics and empowers viewers to make a difference. This engaging and upbeat collection of videos, hosted by California Academy of Sciences youth, explores how local communities are addressing environmental problems.

[Sustainability in Schools Simulation Game](#)- The Education for Sustainability program has designed a simulation game to show how to identify sustainability related projects that make financial sense and weave them together into a coherent strategy that takes advantage of synergies. It also shows how to use those projects in curriculum.

[Cool Science Jobs](#) provides real stories about “cool” jobs using science to help inspire the next generation. They also include vocabulary and can be used as mini-lessons in the classroom.

[Keep Wild Animals Wild](#) lesson plans, videos and worksheets provide everything educators need to introduce students to what makes wild animals wild, why wildlife trade is a big threat not just to animals and ecosystems, but to people too, and how to help keep wild animals wild.

[Black bear curriculum](#) - provides of free multimedia resources on black bears for educators and students.

[12 Pathways to Greening Your School](#) is designed for you to use September - June (1-10) with two serving as year-round learning tools. But, you can put them in any order that aligns with your program. If you'd like to have access to all of these Pathways please become a [FREE MEMBER NOW!](#)

[Project Localize](#) is a customizable curriculum to explore sustainability locally while building knowledge and skills in research, math science, digital technologies, and art through project-based learning. Students participate in field trips to visit local food producers as they employ journalistic practice in gathering the information for their artwork.

[Raptors in the City](#) is a real-time, inquiry-based science program that stars the peregrine falcon. The peregrine has recovered from near extinction and was removed from the Endangered Species list in 1999. The program guides children through nesting season as they watch the still rare falcons live via cameras mounted on a skyscraper.

[Getting the Picture: Our Changing Climate](#)-The adventures of scientist-photographer James Balog and the Chasing Ice team come to life in a newly released climate science education resource which provides a unique, interactive, multimedia experience for students and educators to learn about the latest climate science and witness real-world changes occurring around the world.

[SMILE: New STEM Activities for Educators](#) is an award-winning, free access collection of nearly 4,000 STEM education activities. Many activities are grouped by topics with environmental themes including energy, climate, life sciences, and ocean literacy. Activities are also aligned with standards and principles such as the Climate Literacy Principles, Ocean Literacy Principles, and U.S. DOE Energy Literacy framework.

The [CLEAN](#) (Climate Literacy and Energy Awareness Network) collection is a searchable database for teachers to find online activities, videos, and graphics on climate and energy education. Teachers may sign up for the newsletter with updates on educational policies, discussions with experts, events, and weekly telecons.

["Appetite for Adventure: Exploring Global Food Sustainability"](#)- This standards aligned, multimedia presentation will showcase cutting-edge sustainable food projects from around the world, introducing students to the local and global connections between food production, consumption, and climate change.

[Architecture 2030](#) is appropriate for Grades 9-12. Learn about this architect's efforts to protect the environment by changing the way buildings are planned, designed, and constructed.

[Bird Sleuth](#) for K-12. Kits and resources for learning more about birds.

Contests and Awards

[President's Environmental Youth Award](#) recognizes outstanding environmental stewardship projects by K-12 youth, promoting awareness of our nation's natural resources and encouraging positive community involvement. Winners of this year's awards will be invited to a ceremony in Washington, D.C. in mid-2019, and have their project mentioned on EPA's website. EPA will select up to two winners in each of EPA's 10 Regions – one regional winner for Grades K-5 and one regional winner for Grades 6-12. All student projects must be sponsored by at least one adult over the age of 21. Applications are due **February 1, 2019**.

The [Shell Science Lab Challenge](#) recognizes outstanding **middle and high school programs** for their exemplary approaches to science lab instruction utilizing limited school and laboratory resources.

Teachers of grades 6–12 in the US and Canada are asked to submit innovative, replicable strategies that deliver quality lab experiences with limited equipment and resources. In turn, participating teachers can receive additional tools, resources, and rich professional development opportunities needed to support high-quality science teaching and strengthen their existing capabilities. Deadline: **February 4, 2019**.

[Toshiba/NSTA ExploraVision Science Competition](#) encourages K-12 students to imagine what technology might be like in the future while experiencing scientific process and discovery in an engaging, hands-on way. Let's empower the next generation of inventors, scientists and leaders. Deadline: **February 8, 2019**.

[Transforming our Tomorrow: a New Clean Energy Vision](#)-Prizes \$3000-\$1500. UB Sustainability is searching for students from across New York State to present their revolutionary ideas that will create a more sustainable world through clean energy. Students that have completed a project or program, or have an idea for a new policy or invention, can apply to compete for a cash prize at University at Buffalo's Transforming our Tomorrow. Initial submission doesn't need to be a polished idea. Deadline: **February 8, 2019**.

[Eco-Hero Awards](#) - Action For Nature will honor the work of young people between the ages of 8 and 16 all over the globe who are taking action to solve the world's tough environmental problems with a cash prize, certificate of achievement, and public recognition. Deadline: **February 28**

[Environmental Excellence Award Applications](#)-If you represent a municipal government or non-profit organization in Erie County that has recently completed a project that has environmental benefits, the Erie County Environmental Management Council (EMC) invites you to nominate your project for consideration in the 2019 Environmental Excellence Awards Program. Projects could be in the areas of Planning & Design, Land Use and Zoning, Natural Resource Protection, Air and Water Quality, Ecosystem Health, Energy and Transportation, Agriculture and Forestry, Solid Waste Management, Contaminated Sites, Community Action & Education, Climate Change or any other related subject area. Applications are due by **March 15, 2019**.

[UL Innovative Education Award](#) Eligible 501(c)(3) organizations in the United States and Canada can apply to win up to \$100,000 for using innovative Science, Technology, Engineering, Mathematics (STEM) curricula to help K-12 students solve real-world environmental problems. Applicants for the ULIEA should offer programs that promote learning through STEM priorities, engage all people in civic and social responsibility, and find solutions to environmental challenges. ULIEA's mission is to invest in and support youth engagement in local environmental issues and their communities and encourages youth interest in engineering, technology, science, and mathematics. Deadline: **March 12, 2019**.

[Con X Tech Prize](#) provides \$3,500 to create your first prototype, helping you bring your bold conservation idea to life. And, with 20 of these prizes awarded, yours has a great chance to win. Even better – one of these 20 finalists will win \$20,000 to catapult their idea to the next level. The only question is: What will you build? Deadline: **March 13, 2019**.

[The Gloria Barron Prize for Young Heroes](#) - celebrates inspiring, public-spirited young people from across the U.S. and Canada. Each year, the Prize honors 25 young leaders ages 8 to 18. Fifteen top winners receive \$10,000 to support their service work or higher education. Deadline: **April 15**.

Grant and Scholarship Opportunities

[Capacity Building Grants](#) from the state Environmental Protection Fund to implement and administer a capacity building grants program. This new grant opportunity is designed to assist environmental justice focused community-based organizations to develop administrative, technical and programmatic capacity and expand services protecting public health and the environment. Deadline: **February 1, 2019, 3 p.m. EST.**

[Healthy Watersheds Consortium](#)-The goal of the Healthy Watersheds Consortium Grant Program is to accelerate strategic protection of healthy, freshwater ecosystems and their watersheds. The primary focus for applicants should be protection and stewardship of land in the watershed, not restoration of degraded habitats or projects with a strictly water-quality improvement outcome. Deadline: **February 4, 2019.**

[Sustain Our Great Lakes program](#) has announced that grants are available to restore and enhance stream and riparian habitat, restore and enhance coastal wetland habitat, expand green stormwater infrastructure, and maintain and enhance benefits of habitat restoration through invasive species control. Pre-proposals due **February 12, 2019.**

[The Environmental Justice Small Grants \(EJSG\)](#) program awards grants that support community-driven projects designed to engage, educate, and empower communities to better understand local environmental and public health issues and develop strategies for addressing those issues, building consensus in the community, and setting community priorities. The EJSG program will award approximately \$1.5 million nationwide for this competitive opportunity. EPA anticipates awarding approximately 50 grants (5 per EPA region) of up to \$30,000 each. These grants are for one-year projects. Deadline: **February 15, 2019.**

[2019 Wetlands Research Grant](#) to financially support candidates in producing and sharing independent research focusing on wetlands. Applicants must be currently enrolled as either a matriculated graduate student or junior or senior at a recognized four-year accredited college or university participating in an independent research project with a focus on wetland science/issues relevant to New York. The candidate must have at least a cumulative 3.0 grade point average. Preference given to students with focused research in New York. Deadline: **February 15.**

[Invasive Species Grant Program](#) supports projects that target both aquatic and terrestrial invasive species in categories: Lake Management Planning and Aquatic and Terrestrial Invasive Species Research. Approximately \$3,000,000 in grant funding from the New York State Environmental Protection Fund (EPF) is available for eligible projects. Minimum grant amount is \$11,000. Maximum grant amount is \$100,000, with a 25% match requirement. Eligible applicants include Municipalities, Academic Institutions, and 501(c)(3) not-for-profits whose projects are located within NY State. Other groups such as unincorporated lake associations must apply through a municipality, not-for-profit, or academic institution as the designated lead. Deadline: **Friday, February 15, 2019.**

[Resilient Communities Program](#) supports the health and resilience of communities across the United States facing sea level rise, droughts, floods, and fires. The program helps communities take advantage of natural features such as wetlands, resilient shorelines, urban tree canopies, natural forests, and healthy upstream watersheds to be better prepared for foreseeable resilience challenges, fortify fish and wildlife resources and habitat, and accrue quality-of-life benefits for all residents. **Pre-proposals are due February 19, 2019.**

[2019 Great Lakes Summer Fellows Program](#) provides an exciting opportunity for students to conduct research in the Great Lakes region under the mentorship of a CIGLR or GLERL scientist. We are offering nine (9) full-time, twelve-week positions. There is a stipend of \$6,500 for the twelve-week period. Limited to currently enrolled undergraduate (juniors and seniors preferred), recent graduates and graduate students; must be either a U.S. citizen or a foreign national who is residing in the U.S. on a current Student Visa. Deadline: **22 February 2019.**

[GLRI Cooperative Weed Management Areas](#)-The U.S. Forest Service announces that approximately \$640,000 in new funds are expected to be available for Cooperative Weed Management Areas (CWMAs) in the Great Lakes Basin. For this work, the minimum requested Federal share is \$15,000 and the maximum is \$40,000. A minimum 20% match of the total project cost is required. The goal of this program area is to detect, prevent, eradicate, and/or control invasive plant species to promote resiliency, watershed stability, and biological diversity on Federal, State, or private land. Deadline: **February 22.**

[NY Sea Grant's Biennial Research Call for 2020-2021](#) invites Pre-Proposals for Research to generate and provide valid scientific information that will further the sustainable development, use, protection, conservation, and management of our coastal resources. The research must clearly be driven by stakeholder identified research needs and must provide enhanced opportunities for NYSG to 'make a difference' and have an impact on addressing important coastal issues. Deadline: **Monday, February 25, 2019.**

[The New York Water Environment Association Scholarships](#) include a \$10,000 (Major) Environmental Career Scholarship, \$5,000 (Major) Nicholas J. Bartilucci Environmental Scholarship, \$2,500 Scholarship and the N.G. Kaul Memorial Scholarship. Deadline for all: **February 28, 2019.**

[Buffalo Niagara Medical Campus Spark funding](#) invites community members and organizations to apply for grant funding for projects that help strengthen neighborhoods adjacent to Campus. Deadline is **February 28.**

[Funding for Municipal Food Scraps Reduction, Food Donation, and Food Scraps Recycling](#) - to support municipal projects to reduce wasted food, donate wholesome food and recycle food scraps. Deadline: **March 1, 2019.**

[Annie's Sustainable Agriculture Scholarships](#) supports students working to shape the future of the food system through the lens of three regenerative agriculture principles: Building soil health, fostering aboveground biodiversity, and promoting resilient farm communities. Deadline: **March 15, 2019.**

[NYSAR³ College Council grants](#), co-sponsored by the NYS Pollution Prevention Institute and NYSAR³, provide up to \$10,000 for projects that focus on source reduction, reuse, or recycling at New York universities and colleges. Each College Council member institution can apply for project funding up to \$5,000. Deadline: **March 15.**

[Learning to Give Mini-Grants for Service-Learning](#) - The Learning to Give mini-grants range from \$250 to \$500 with a simple application process and priority given to those who use social media to share their plans, discuss ideas, and reflect! Applications will be reviewed on the 22nd of each month until **March 22, 2019.**

[Preserve New York](#) makes grants for reports on historic structures, building condition, cultural landscape, and cultural resource surveys. Applicants must be a unit of local government or a registered 501c3 not-for-profit. The program provides support up to 80% of the project cost. Deadline: **March 25.**

[2019 Earth Day Grants](#) offered by Air & Waste Management Association – Niagara Frontier Section (A&WMA-NFS) worth up to \$500 each in honor of Earth Day 2019. The program promotes environmental awareness through creative and impactful educational activities and community engagement efforts. Deadline: **March 29.**

[Davis-Putter Scholarship Fund](#) up to \$15,000 is available for student activists who are organizing for social change and building progressive movements on campus and in community. Deadline: **April 1.**

[2019 Air & Waste Management College Scholarship](#) for Full-time undergraduate students attending a college or university located within the New York State counties of Allegany, Cattaraugus, Chautauqua, Erie, Niagara, and Wyoming during the 2018 - 2019 academic year. Deadline: **April 12, 2019**

[Len Assante Scholarship Program](#) was developed to nurture and support those who wish to pursue and advance careers involving the protection, distribution, remediation, and responsible utilization of groundwater resources. Scholarships are for fulltime students only (including high school seniors who are applying) enrolled in a program that is groundwater industry-related. Deadline: **April 15, 2019.**

[H2O for Life Mini-Grants](#) provide \$250-\$500 mini-grants for schools to organize projects that educate youth about the global water crisis and help them take action to provide water, sanitation and hygiene education (WASH) for global partner schools. **Deadline: Rolling**

[The Karma for Cara Foundation](#) is encouraging kids 18 and under to apply for funds between \$250 and \$1,000 to complete service projects in their communities. **Deadline: Rolling.**

[Food Waste Grants](#) - The New York State [Pollution Prevention Institute](#) (P2I) will operate the funding program, which will provide reimbursement to businesses that generate over one ton of food waste per week to offset the cost of select technologies and equipment that promise to reduce or divert that food waste from landfill or incineration. Eligible projects must reduce and/or divert wasted food at a New York State business including, but not limited to, supermarkets, restaurants, and hospitals. Monies from this program will help food scrap generators implement food waste reduction recommendations, purchase capital equipment used in food donation, and create, improve, and expand diversion efforts to on and off-site compost and anaerobic digestion facilities. **Deadline: Rolling.**

[Wells Fargo Clean Technology and Innovation Grant Program](#) funds projects and programs related to research and development for new and emerging clean technologies by working with universities, colleges, research institutes and laboratories as well as entrepreneur incubator, accelerator and business plan competitions. If you would like to submit a topic for consideration provide a brief description (150 words or less).

[Project Produce: Fruit and Veggie Grants for Schools](#)-designed to help increase kids' access to fresh fruits and vegetables and create experiential nutrition education when and where students make their food choices: in the cafeteria. The \$2,500 one-year grants support food costs to incorporate school-wide fruit and vegetable tastings into the school's nutrition program. Grants will be determined on an ongoing basis depending on available funding.

[Industrial Hemp Processing Grant Fund](#)-New York has also allocated up to \$5 million for grants for machinery and equipment required to process industrial hemp for commercialization. Grants may provide a minimum of \$50,000 and a maximum of \$500,000 for up to 50% of total project costs supporting capital investments. To be eligible, the facility must be located wholly in New York State which processes industrial hemp for commercialization.

[Toyota Every Day Capacity Building Grants](#)- Up to \$5000 for 25 Public Lands Friends' groups in each cycle. Projects that are needed and will help contribute to the long- term sustainability of the organization. **Deadlines: April 23 and other dates later in the year.**

[NIEHS Conference Grants](#)-The mission of the National Institute of Environmental Health Sciences (NIEHS) is to discover how the environment affects people in order to promote healthier lives. The NIEHS Conference grant program is considered an integral part of the overall mission of the Institute; thus it is critical that all conference grant applications have a direct relationship to advancing the mission of NIEHS. In order to be responsive, all conference grant proposals must focus on or clearly indicate relevance to advancing our understanding of the role of environment and/or gene-environment interactions in disease/dysfunction. **Deadline: Rolling.**

[Youth Pollinator Gardens Grant](#)- up to \$200, are available for projects that include educational materials on the vital role pollinators play in nature and youth involvement in planning and planting gardens providing nesting and food sources for pollinators. To apply for a grant, complete an NGC Grant Application, provide detailed information about the project, and submit your request to the NGC Youth Committee Chairman for approval.

[Cornell Douglas Foundation](#)- Its mission is to provide small grants to organizations which promote the vision of the foundation: advocating for environmental health and justice, encouraging stewardship of the environment, and furthering respect for sustainability of resources. **Deadline: Rolling.**

[Saving Species](#)- We help local conservation groups purchase land for conservation and habitat restoration, and may consider projects for restoration of habitat on land that is within an existing protected area. We maximize our effectiveness by providing grants for the purchase and restoration of land that connects existing habitat fragments, or that prevents isolation of habitat that would otherwise continue due to habitat loss. **Deadline: Rolling.**

[Cedar Tree Foundation](#)- Letters of Inquiry Accepted at Any Time. Areas: Environmental Education, Environmental Health, Sustainable Agriculture.

[VolunTEEN Nation International Service Project Grants](#)- Students (ages 13-22) from the US going abroad to volunteer or study in a developing country are encouraged to apply for an international service-learning mini-grant. Grants are for up to \$300 to create a service project in a developing country while you are visiting that country. **Deadline: Rolling.**

[KEEN Effect](#) is committed to inspiring responsible outdoor participation to help preserve the places we all play. Through the KEEN Effect, \$10,000 grants are awarded to nonprofit organizations around the world who are dedicated to responsible outdoor participation. Projects must increase responsible outdoor participation as a way to work towards building a strong community. **Deadline: Ongoing.**

[Everyday Young Hero Award](#)-Everyday Young Heroes are young people, ages 5-25, who are improving their communities through service to others and making significant progress in achieving the UN's Sustainable Development Goals (SDGs). Each week, YSA selects one young person to receive this honor and receive \$250 grants to continue and expand their project. **Deadline: Rolling**

[The Fruit Tree Planting Foundation](#) is dedicated to planting fruitful trees and plants to alleviate world hunger, combat global warming, strengthen communities, and improve the surrounding air, soil, and water. FTPF programs strategically donate orchards where the harvest will best serve communities for generations. **Deadline: Rolling.**

[Doris Duke Environment Program Grants](#)-For Nonprofits registered and working in the US. Permanent land protection (i.e., the acquisition of conservation easements or fee title interests to secure high-priority sites), management of lands already in protected status, and more. **Deadline: Rolling.**

[WalMart Community and Education Grants](#) . Rolling Deadline, but minimum 6 month lead time advised. 501 (c) (3) organizations, schools, religious organizations and government agencies for requests over \$250. For requests under \$250, get a local donation form from your nearest Walmart at the customer service desk.

[Environmental Research and Education Foundation](#). Open. All educational materials for sustainable solid waste management, including conferences or events, which advance the foundation's educational mission. Grants are typically not provided to support the development of educational projects.

[Toshiba America Foundation](#). Rolling deadline. Grades 6-12 Teachers. Under \$5,000. Inquiry based projects designed by teachers and teacher teams for use in the classroom. **Deadline for grants over \$5,000 is August 1.**

[KaBOOM! Let's Play Engineered Wood Fiber Surfacing Grants and Let's Play Maintenance Grants](#)- awards grants of \$750 each to communities who wish to top-off their Engineered Wood Fiber safety surfacing or who are working to make their existing playgrounds cleaner, safer and more inviting. **Rolling deadlines.**

[J-Serve Start-Up Grants](#)-J-Serve is the International Day of Jewish Youth Service. Grants are available for \$500 micro grant to communities that plan and execute projects that bring a minimum of 10 and maximum of 74 Jewish teens together in partnership with a least two movements or agencies in the community. **Rolling deadline.**

[Niagara Falls National Heritage Area](#) supports important projects and programs throughout the National Heritage Area with the long- term goal of realizing community betterment. Grants are targeted to fund projects or programs that directly relate to the [Niagara Falls National Heritage Area Management Plan](#).

[World We Want Foundation](#) is accepting applications from organizations that represent youth making positive social change in their communities and around the world. Grants of up to \$5,000 will be awarded to youth between the ages of 13 and 25 who want to make a difference. Application deadline: **Rolling.**

[The Coca-Cola Foundation](#) partners with nonprofits that address priorities focusing on one of the following: Water Stewardship, Healthy and Active Lifestyles, Community Recycling and Education. **Rolling deadlines.**

[Kresge Foundation's Healthy Environments grant program](#) seeks to improve the health and well-being of vulnerable populations by making the places they live, learn, work and play safe and conducive to overall good health. Application deadline: **Rolling.**

[Cisco Global Impact Cash Grants](#) support nonprofit organizations in the U.S. and worldwide that provide assistance to underserved populations and leverage technology solutions to improve the reach, efficiency, and impact of services. Take the [Eligibility Quiz](#) to see if you can apply.

[Technical Assistance Grant Information](#)-The New York State Department of Environmental Conservation (DEC) is continuously accepting applications for Technical Assistance Grants (TAGs). TAGs are a citizen participation tool available to eligible community groups to increase public awareness and understanding of remedial activities taking place in their community. Eligible community groups may apply to receive grants for up to \$50,000 per site.

[Home Depot Community Impact Grants](#)-Grants, up to \$5,000, are available to non-profit organizations and tax-exempt public service agencies in the U.S. that are using the power of volunteers to improve the physical health of their community. Grants are given in the form of The Home Depot gift cards for the purchase of tools, materials, or services.

[The Pollination Project](#) seeks to unleash goodness and expand compassion all over the world. We make daily seed grants to inspiring social change-makers who are committed to a world that works for all. We support passionate, committed people with an early-stage social change vision.

[Shell Foundation Grant](#)—Programs that restore critical ecosystems, address water, air quality research, preserve wetlands and sponsor wetlands initiatives. Deadline: **Rolling**.

[Fluor Foundation Grants](#)—Nonprofits and academic institutions. Projects promoting responsible stewardship of the environment and supports organizations that protect natural resources and habits through conservation, restoration and beautification, and environmental education. Deadline: **Rolling**.

[Disney Conservation Fund: Rapid Response Grants](#)—Nonprofits and academic institutions located in the US. Projects which help animals during emergencies and natural disasters through its Rapid Response Fund. Deadline: **Rolling**.

[Patagonia Environmental Grants](#)- We are most interested in making grants to organizations that identify and work on the root causes of problems and that approach issues with a commitment to long-term change. Because we believe that the most direct path to real change is through building grassroots momentum, our funding focuses on organizations that create a strong base of citizen support. Deadlines: **April 30 and August 31**.

Employment and Internship Opportunities

[Summer Nature Education Internship](#)-Jamestown Audubon Center. Apply by **March 1**. Paid.

[Invasive Species Management Assistants](#) will work closely with the WNY PRISM Terrestrial Projects Manager and partners to implement invasive species prevention, early detection, management, and habitat restoration projects within the 8-county WNY PRISM region. The selected candidates will conduct invasive species surveys and assessments using iMapInvasives, assist with priority invasive species removal and restoration projects, provide project reports, and assist with outreach events such as tabling at farmers' markets and festivals. Invasive species removal efforts will include use of both manual and chemical (herbicide) methods. Deadline: **March 8**.

[Education and Outreach Assistant](#) will work closely with WNY PRISM staff and partners to implement and expand our education and outreach programs and will report directly to the WNY PRISM Education and Outreach Programs Manager. Education efforts are essential to the success of the partnership and are integrated into nearly all aspects of WNY PRISM work. The selected candidate will help maintain WNY PRISM Listserv and social media accounts, prepare e-newsletters, organize, attend, and lead education and outreach events, assist with materials development, represent WNY PRISM at meetings and events, and communicate with partners. The Education and Outreach Assistant will also assist with some invasive species removal efforts. Deadline: **March 8**.

[Director of Museum Programs](#) - Buffalo Science Museum. Responsible for the strategic management, oversight and implementation of all public-, community-, and school-based programs offered by the Buffalo Museum of Science.

[Adirondacks Job Board](#)-includes seasonal opportunities.

[Invasive Species Management Coordinator and Work Crew Positions](#)-Jamestown Audubon Center, temporary, summer.

[SCA Excelsior Conservation Corps](#)-Seeking applicants between the ages of 18 and 25 to work on infrastructure and sustainability, invasive species removal, trail construction, and other environmental conservation-related projects.

[Aquarium of Niagara Internships](#)-Opportunities for high school or college students to work with marine mammals, fish, penguins and turtles. Certain requirements must be met.

[Clean Air Coalition Internships](#)-The Clean Air Coalition is a grassroots environmental health and justice organization based in Buffalo, New York. All internships include some operations and administrative work. The Clean Air Coalition's internships are ideal for highly motivated individuals looking to deepen and practice their skills engaging community leaders in solving environmental health and justice organizations.

[Service Collaborative of Western New York Vista Positions/Americorps](#)-Opportunities for paid community involvement. Check out the available opportunities and eligibility. Some positions are summer only, so apply now.

[ASHA Animal Sanctuary Internships](#)- Seeking individuals for administrative, development, visitor programs and animal care positions.

[Buffalo & Erie County Botanical Gardens Internships](#)-Seeking individuals to work with Education Dept., Special Events, and Horticulture.

Citizen Science

[Project Acari](#)- Help tick researchers by sending samples for analysis. Register and you can receive a free kit with a postage-paid mailer.

[FrogWatch USA™](#) is a citizen science program of the Association of Zoos and Aquariums that invites individuals and families to learn about the wetlands in their communities and help conserve amphibians by reporting data on the calls of local frogs and toads.

[Hemlock and HWA Hunters](#)-volunteers locate hemlock stands and hemlock woolly adelgid in NY. To join our project please send us an email at cm933@cornell.edu or info@nyshemlockinitiative.info.

Upcoming Community Activities:

Friday, February 1

Hemlock Woolly Adelgid Survey-1pm. We will meet in the RTPI parking lot promptly at 12:30 to carpool and meet on-site in the Hatch Run parking lot (located off of Hatch Run Road in Warren PA) around 1:00pm. We like to have vehicle wheels rolling at 6:00 PM. If you would like to join us feel free to contact us Tuesday afternoon. Email christine@pathspeakspaddles.com or call us at 716-213-0350 for the evening adventure.

Wednesday, February 6

GBNRTC Monthly Meeting-Public welcome. 9:30 to 11am at City Hall., Buffalo. All are invited to attend Planning and Coordinating Committee (PCC) Meetings to discuss transportation events, planning initiatives, and projects with [GBNRTC Member Agencies](#).

Buffalo Talks: Proposing a New Linear "Rail" Park-Noon to 1pm at Buffalo Central Library. In Buffalo, wildlife is reclaiming an unused rail corridor. For a mile and a half, through the First Ward, the Valley, and the Perry Neighborhood, this land connects the DL&W Terminal in downtown Buffalo near Canalside to the Buffalo River across from Solar City. Since the fall of 2017, the Western New York Land Conservancy has been meeting with neighbors and community leaders to start a conversation about creating an inspiring and environmentally-friendly linear park and multi-use trail along this rail corridor. Come listen to Alicia Fahrner from the Land Conservancy fill us in on where this initiative is currently. Reserve your spot at <http://www.workingfordowntown.org/events/buffalo-talks-proposing-a-new-linear-rail-park-feb-6th-2019/>

In Practice: Alumni Symposium and Sydney Gross Symposium-2 pm - 6 pm at Hayes 403, UB South Campus. The event brings together alumni from architecture, urban planning and real estate development, to discuss different forms of practice that they are engaging in. The speakers have all graduated from one of the programs offered at the School of Architecture and Planning in the past 10 years, and each has taken a distinctive path since. The symposium offers current students and other members of the School and community an opportunity to consider modes of practice within the realms of architecture and planning and at the intersection with other disciplines.

Climate Smart Communities Webinar: Advancing Food Scraps Recycling in NYS-10:30 AM - 12:00 PM. This webinar will provide an overview of two state grant programs that are available to local governments to support the recycling of wasted food. If you plan to attend, please provide your name, email, and community affiliation to the DEC Office at climatechange@dec.ny.gov or 518-402-8448. In the event that we postpone the webinar, respondents will be notified. Registration is recommended but not required. Join the webinar at [here](#) and use the password NYSDEC1.

Thursday, February 7

Wellness Walks-10:00am - 12:00pm. Drop by Tiff Nature Preserve every Thursday and join us for a casual volunteer-led tour of the Preserve. Please call 716-825-6397 to confirm walk will be taking place. Open to all, \$2 donation per person is appreciated.

Adventures in Buffalo History-This speaker series features different Explore Buffalo docents presenting lectures on a wide variety of topics. Each session will have two different lectures. All sessions are from 7-9 PM on Thursday evenings at First Presbyterian Church of Buffalo on Symphony Circle. Admission per session: \$10. [Explorer Pass](#) Holders: Free. Topic: The Library in Erie County: A Short History & Overview of the Current Library System, The Village of Depew: Chauncey Depew, Railroads, and F.L. Olmsted. [Register.](#)

Making Elderberry Syrup- 6:30 - 8:30pm, Community Education Program at Buffalo Seminary, 205 Bidwell Pkwy, Buffalo. Cost: \$24 includes 4 oz bottle of elderberry syrup, recipe, samples and emailed powerpoint presentation. Optional Lab fee: \$8.50 elderberry syrup kit (makes approximately 2.5 cups syrup). Elderberry is a locally abundant herb that has traditionally been used for its immune boosting properties. Research has confirmed its antiviral nature, and its potential support in avoiding cold and flu. In this workshop, Community Herbalist Sarah Sorci of Sweet Flag Herbs will discuss identification and harvest, properties, and uses of elderberry syrup. Participants will learn about a few of Sarah's favorite ingredient additions, like rosehips and astragalus root. Sarah will demonstrate the preparation of elderberry syrup, and each participant will take home a 4 oz bottle made with local raw honey. Elderberry syrup is safe for adults and children over the age of 1 year. To register, contact Elizabeth Coffey at lcoffey@buffaloseminary.org or (716) 885-6780 Ext. 202.

Genesee County Master Gardeners Talk-free from 12:15 to 12:45 p.m. on the first Thursday of the month at the Cornell Cooperative Extension office, 420 E. Main St, Batavia. Take your lunch. Registration is not required. ["Seed Starting Basics"](#) Starting your own seeds is a great way to get a jump on the growing season. It also gives you access to hundreds of specialty varieties that you won't find at your local nursery. The presentation will demystify seed starting at home with easy-to-follow instructions and insightful tips for both novice and experienced gardeners.

Orchard Park Garden Club- 1 p.m. at the Presbyterian Church, 4369 S. Buffalo St., Orchard Park. Sign-ups begin at 1 p.m. with refreshments at 1:30 p.m. and the program at 2 p.m. Mark Carra, Naturalist in Residence at Beaver Meadow Nature Center, will present a talk on pollinators.

SPCA Wildlife Dept. Volunteer Orientation-RSVP mandatory. 6 to 7:30pm. To reserve a spot, call Barbara Haney at 875- 7360 ext. 220 or email barbh@yoursPCA.org. Volunteers must be 18 or older. Info at <https://yoursPCA.org/events-calendar/wildlife-department-2019-new-volunteer-orientation/>

Friday, February 8

Cocktail Bitters and Beyond: Reconnecting with a Lost Flavor-beHealthy Institute from 6:00 – 8:00 pm. Cost: \$29 includes recipes, many samples, and herb seed packet. Whether splashed into a cocktail or used medicinally before meals, bitters have an array of health benefits for the human body. Throughout our history, the human gastrointestinal tract (and several other body systems) developed a complex relationship with bitterness—including special bitter receptors—and our bodies require this flavor for healthy functioning. As we sample bitter tinctures and cocktail recipes, Community Herbalist Sarah Sorci will explore the range of effects that bitterness has on the body, including stimulation of digestive secretions, improved absorption of nutrients and fats, support of healthy blood glucose levels and weight, stress management, and more. Sarah will describe the specific properties of some of her favorite herbs, focusing on those that can be cultivated or sustainably wild-harvested in New York State. Participants will take home a seed packet for cultivating your own bitters at home. [Click here to register.](#) 40 Main Street, Hamburg, NY 14075, 716-648-3400. info@behealthyinstitute.com

Buffalo Astronomical Association Meeting-7:30 to 10:30 pm at Buffalo State College, C122 Classroom Building. <https://buffaloastronomy.com/events>

Valentine Snowshoe Brunch at Bond Lake-11:00 am - 2:30 pm. This has been a much talked about favorite winter activity for everyone. If you haven't attended our brunch and hike you must this year! This exciting Sunday morning/afternoon adventure is a new twist to a normal "restaurant" Sunday morning brunch. Come and join us out at Bond Lake for a Dutch Oven Brunch. We plan to serve hot fresh baked goodies, mountain main breakfast (vegetarian mountain man breakfast will also be served), tea, coffee and hot chocolate. After you have had plenty to eat come and join us for an early afternoon snowshoe adventure through the park. If mother nature does not provide us with snow we will spend the afternoon hiking. Brunch will be served at 11:00 AM. If you have snowshoes the cost will be \$25.00 (this includes your brunch and guided hike). If you do not have snowshoes and need to rent [contact us](#) (direct link). Snowshoe rental with poles is \$10.00pp. Reservations are a must. If you have never snowshoed this is the time to come out and try it. Trails are easy to hike. Instructors and NYS Licensed Guides will accompany you on this hike. For further information [contact us](#).

Monday, February 18

National Battery Day-Recycle batteries responsibly. See the Tips for Environment below events for links.

Tuesday, February 19

Table Talks: “Architecture as a Tool for Community Transformation”-5 to 8pm at University at Buffalo, Hayes Hall, Rm 403, 3435 Main St., Buffalo and will feature a professional networking session in conjunction with an AIA continuing education credited panel discussion. The networking portion of the evening is set up career fair style and will feature a series of Tables decked out by our many sponsoring firms. Attendees are encouraged to mingle about and converse with the participants about their ongoing work, including opportunities for employment and partnerships. The panel discussion will be about the community transformation taking place through the Northland Beltline Redevelopment Project: Northland Central and the Northland Workforce Training Center. Panelists representing the architect, owner, construction manager, and end user will share their experiences throughout the project and their roll in transforming a community. The purpose of this event is to foster relationships within the A&E community between students and industry leaders working locally in the profession. Our goal is to give students a better idea of what opportunities are available to them here in Western New York, and to build up our city and our workforce. This event is free and open to the public. There is one (1) AIA learning unit available for those who attend. Online registration is required and may be done by clicking [here](#). A buffet of light refreshments and a cash bar will be available throughout the evening.

Behind the Scenes: Knox your Average Piggy Bank-6 to 8pm at the Buffalo Science Museum for adults 18+. Cost \$25 which includes museum entry. Go behind the scenes to see what few have seen and explore the Museum’s Collection. Tours are approximately two hours in length. Register online or by phone at least one week in advance. Come behind the scenes and learn about the Knox Money Collection and the evolution of money. [register](#)

Monday, February 25

Japanese Stiltgrass Update-6:00 – 7:30pm at 101 King St, East Aurora, NY 14052. Japanese stiltgrass, an early detection priority invasive species, was found in the Village of East Aurora and reported to WNY PRISM in 2017. In response, WNY PRISM partnered with the Village of East Aurora and Town of Aurora to start an education campaign to raise awareness of this species and the threat it poses. In 2018, WNY PRISM mailed over 2500 post cards to residents surrounding the known infestation and conducted site surveys looking for Japanese stiltgrass. This presentation will provide background on Japanese stiltgrass, an update on outreach and survey efforts, information on best management practices, and include a discussion about next steps. Please join us!

Tuesday, February 26

Show and Share for Environmental Educators-9:30am to 3:30pm. Demonstrate your hands-on environmental/outdoor education (EE/OE) activity, resources, and written lesson plan with workshop participants. Each "share time" is up to 15 minutes in length. Genesee County Park & Forest, 11095 Bethany Center Rd., East Bethany, 14054. To register contact Kimberly at kadriaansesn@sciencebuff.org. Register by Feb. 6. Free event. Sponsored by the New York State Outdoor Education Association www.NYSOEA.org. To share an activity, please submit to kadriaansen@sciencebuff.org your activity lesson plan and resource files to be shared, BEFORE Wednesday, February 20. Be sure to specify if any particular materials are needed the day of, if you have a time preference, and whether the activity will be shared inside or outside. Each activity will be shared within a 15 minute time frame (think "speed-dating"/ or a delicious "flight" of multiple activities). After the workshop, lesson plan PDF's will be posted on NYSOEA.org under "Member Resources". Although it is preferred that participants share an activity and attend the whole workshop, neither are required. Please bring your own bag lunch if attending the whole event. Light refreshments will be offered; please feel free to bring something to share!

Tips for the Environment:

1. **Get Charged Up for National Battery Day which is February 18-** Visit [batteries](#) to learn about different types. Rechargeable batteries (including those in power tools and cell phones) can be dropped off at a number of stores (find a site [here](#)). There are currently no drop-off sites for single use batteries, but you can [purchase](#) a collection box or support a [store](#) or organization that has purchased one to ship these batteries.
2. **Repurposing bed sheets-**of course you can use them as rags, but here are a few other options depending on their condition. [Reusing bedsheets](#)

Remember the 4 R's: Reduce, Reuse, Recycle, Repair

By Lesley Haynes

Did you know that you can save your money and the environment by being vigilant when using your small electrical appliances? Here are some minor changes you can make:

Put Your Computer to Sleep: If you do not want to keep rebooting your PC, you can reduce the electricity consumption by putting both the monitor and the computer itself in sleep mode when they're not in use. Computers operating on snooze control use about 95% less electricity than those running on full power. A stroke of the key will wake up your computer right away.

Remove the screen saver from your computer. When those pictures are activated on your screen, the computer is still running on full power.

Workplace: Make sure you and your co-workers aren't leaving their computers on all night long. Make it a corporate policy to have all computers shut down at the end of the workday

Unplug electrical cords when they are not in use: Did you realize that your TV uses electricity even when turned off? The same goes for your stereo, coffee maker, garage-door opener, microwave oven, clock radio and other electronics. Yes, even chargers for cell phones and MP3 players siphon energy when plugged in— even if they're not charging a thing! Included are inkjet printers and iPod chargers. Unplug power adapters or battery chargers when equipment is fully charged or disconnected from the charger. These **'energy vampires'** add about \$200 to your annual energy bill. That's because the "off" button doesn't really mean "off" these days; instead, it means "standby." In fact, your TV, VCR, DVD player with remote control uses more energy during the 20 hours a day that it is turned off and in a "standby power" state than it does during the hours you watch the tube.

Take the time: In the evening when it is dark, turn off all lights and take a walk around your house as if you were a detective finding clues. Make note of all those little red (sometimes comes in other colors) dots that are innocently glowing in the dark. Plug all components of a computer or home entertainment system into a **power strip**. Turn off the power strip with a single switch when electronics and appliances are not in use. Anything plugged into the strip is truly turned off.

Do you really need everything that is plugged in? In my kitchen there was a clock on the stove, on the microwave, the coffee maker and another one on the wall. Four clocks in all! Just how many did I need to tell me the time in one room? I kept the one on the stove top connected and now I disconnect the others when not in use. I moved the wall clock to another room.

Let's talk about saving energy and money: The average U.S. household spends more than \$200 annually to power devices while they are "off". Microwave ovens, computers and TVs even when turned off continue to use energy. Like a leaky faucet, they are responsible for a tremendous amount of waste. In fact, 40% of the energy used to power consumer electronics is consumed when the devices are not in use. The typical American household has 27 appliances that are always on.

Make it a **routine** to shut off lights and electrical appliances whenever you leave a room. Put timers on lamps that will turn off lamps at the same time on a daily basis. Timers like these can be found in hardware stores and they can be plugged into your lamp.

Bottom line is: switch off anything that uses electricity when it is not in use.

"Together we can make a difference"

Lesley Haynes – lesleyhaynes14@yahoo.com

Ongoing Volunteer Opportunities Available

Volunteer opportunities are available at local organizations for a one-time commitment for several hours to a regularly scheduled donation of your time. Websites are listed later in the newsletter.

Aquarium of Niagara- Scuba-certified volunteers needed to clean the sea lion exhibit (without animals) once monthly. Other opportunities exist for education, exhibit maintenance and other tasks.

AWARE (Association for Wild Animal Rehabilitation and Education) - Volunteers needed for fundraising, grant writing, capturing and transporting animals to us or the veterinarians, public relations, construction of cages, begging for donations of materials and food (for the animals, not us) and for helping at our educational programs.

Buffalo Audubon- Volunteers wanted for Beaver Meadow Audubon Center, and For the Birds Niagara! Help with tour leading, office work, programming, grounds keeping and general maintenance. Every Wednesday 10am-2pm is Volunteer Day at Beaver Meadow. No need to register, but bring a lunch. Call (800) 377-1520 for details.

Buffalo Carshare- This new non-profit has brought car-sharing to Buffalo. Volunteers are needed for office help and promotion. Contact them at <http://www.buffalocarshare.org/volunteer.html>.

Buffalo Central Terminal- Many different opportunities for people interested in helping to preserve this unique building- people with basic carpentry and repair skills, and those with plumbing or electrical skills, to work inside the building, as well as those interested in staffing events, assisting with fundraising, marketing, operating our gift shop, and other tasks. For info, check <http://buffalocentralterminal.org/you-can-help/volunteer-with-the-ctrc/>.

Buffalo & Erie County Botanical Gardens- Docents needed. Training is provided. Tours and hands-on lessons are scheduled in advance, so you may sign up for those that fit your schedule. Other opportunities to help are available too. For info, contact khammer@buffalogardens.com

Buffalo Junior Solar Sprint-If you are interested in helping run the JSS Buffalo event or are interested in finding out more about the Leadership committee, please contact jssbuffalo@yahoo.com.

Buffalo Museum of Science has volunteer and internship opportunities available for teens, college students and adults. For information, contact Monika McFoy, Director of Community Programs, at 896-5200, ext. 343.

Buffalo Niagara Waterkeeper- <https://bnwaterkeeper.org/programs/volunteer/> for opportunities.

Buffalo ReUse can use volunteers for many things. To help, contact them at volunteer@buffaloreuse.org.

Clean Air Coalition of WNY-Help with mailings, phone calls, canvassing and Photovoice (documenting environmental challenges). To help, contact at 852-3813 or www.cacwny.org.

Excalibur, a private, non-profit all volunteer, charitable organization seeks competent anglers and captains to help provide free boating and fishing opportunities on Lake Erie for disabled and disadvantaged persons using the organizations new vessel. Contact Director Jim Catalano at jim@excaliburl.org or visit <http://excaliburl.org>

Garden Walk Buffalo helps to rejuvenate neighborhoods, helps make our neighborhoods more walkable, and has an incredible impact on Buffalo's image outside the region. For info, email GardenWalkBuffalo@yahoo.com.

Go Bike Buffalo- If you're interested or want more information, info@gobikebuffalo.org

Habitat for Humanity needs volunteers to help impact lives of families in the city of Buffalo by building simple, decent homes. Call 204-0740 or volunteer@habitatbuffalo.org.

Hawk Creek Wildlife Center is seeking volunteers for who would like to work with wildlife. 16 years or older. Call 716-652-8646. Email info@hawkcreek.org.

HOME, Inc. (Housing Opportunities Made Equal) seeks volunteers to work on various committees to further fair housing. For info/application, email muj265@homeny.org or visit their website at www.homeny.org.

Iroquois Observations offers free nature programs in partnership with the Buffalo Audubon Society each spring and fall. Please contact Garner Light at 772-5110 or glight@rochester.rr.com for more information.

Junior Solar Sprint Buffalo- If you are interested in helping run the JSS Buffalo event or are interested in finding out more about the leadership committee, please contact jssbuffalo@yahoo.com

Lead Safe Erie County needs volunteers to help paint houses and prevent lead poisoning. For those who are interested, there is also free training for Lead Safe Work Practices Certification. Service learning students, block clubs and others are welcome. Call Mary at 716-833-2929, ext. 117.

Massachusetts Avenue Project needs volunteers from the 1st week in April through October on Saturdays from 10-1 PM. <http://mass-ave.org/>

Olmsted Parks-Volunteers are needed for tree plantings, special park events, office work and mailings. Please call (716) 838-1249 x. 33 for more info on becoming an Olmsted parks volunteer.

Penn Dixie Paleontological and Outdoor Education Center- Volunteers of all ages and backgrounds are needed. Have a few hours a month to help introduce children and adults to the natural sciences? Call (716) 627-4560.

Queen City Farms- Contact Meghan at meghmccallum@gmail.com. Remember that families with children are always welcome with parental supervision.

Preservation Buffalo Niagara-Interns & volunteers welcome. www.preservationbuffaloniagara.org.

Reinstein Woods Nature Preserve offers a variety of volunteer positions as well as internships for college students. For more info, call 683-5959 or visit <http://www.dec.ny.gov/education/1960.html>.

Science Firsthand needs adult mentors to work with children in learning about science. All materials are provided. Mentors and students meet one hour per week after school at a community center. For info, call 858-7548.

Slow Roll Buffalo- our volunteer squad serves in a wide variety of roles on Mondays and beyond, from planning routes and keeping the rides smooth to many forms of community outreach. Our big biking family is ever-growing - if you're looking for a fun and fulfilling way to get involved in our community on wheels, submit an [application](#)!

Tiftt Nature Preserve also needs volunteers for their programs, communications, fund-raising and other events. [716-825-6397](tel:716-825-6397) and tifttreservations@sciencebuff.org.
